**The LeadGen Economy** Alex Paddington, 2025-12-25 Every day, millions of consumers fill out forms seeking insurance quotes, mortgage rates, and solar estimates. They click "Get Quotes" expecting responses from a few interested companies. What happens next is invisible to them: Their information enters a shadow economy. Within milliseconds, their data (name, phone number, email, intent signal) is packaged, priced, and routed through real-time auction systems. Multiple buyers bid. The highest bidder gets to make contact first. The entire transaction completes before the consumer reaches the "thank you" page. This is the lead economy: A multi-billion-dollar marketplace operating beneath consumer-facing brands, connecting those who generate demand with those who fulfill it. Publishers run traffic campaigns, capturing consumer interest. Brokers aggregate and route leads through ping-post exchanges. Buyers, insurance carriers, mortgage lenders, and solar installers compete for the right to make contact. The economics are brutal and honest. The
