No Easy Answers No Easy Answers:

When There Are No Easy Answers John S. Feinberg, 2016-06-08 How can a God of love allow terrible things to happen in our lives Christians often assume they're equipped to deal with tragedy if it enters their lives but like most people think it never really will What happens then when we follow God's will to the best of our abilities and heartbreak strikes Do we mean it when we implore Have Thine own way Lord or does that only apply in times of blessings or small manageable hurts John Feinberg knows that conundrum intimately In 1987 his beloved wife was diagnosed with an incurable genetically transmitted disease They were immediately challenged in their faith and their approach to God's goodness in the face of the evil of suffering More they discovered just how little their Christian community understood about how to support people in crisis *When There Are No Easy Answers* considers the problem of grief from every angle just as the Feinbergs walked through it in their journey It confronts the question of justice examines the nature of God and argues for the reality of grace Feinberg explores the biblical reasons against the use of traditional clichés and platitudes especially by those in ministry and lays out alternatives that can actually comfort and encourage the person who is struggling or grieving

No Easy Answers Brown, Brooks, 2022-06-10 On April 20 1999 Dylan Klebold and Eric Harris two seniors at Columbine High School in Littleton Colorado walked into their school and shot to death twelve students and one teacher and wounded many others It was the worst single act of murder at a school in U.S. history Few people knew Dylan Klebold or Eric Harris better than Brooks Brown Brown and Klebold were best friends in grade school and years later at Columbine Brown was privy to some of Harris and Klebold's darkest fantasies and most troubling revelations After the shootings Brown was even accused by the police of having been in on the massacre simply because he had been friends with the killers Brown with journalist Rob Merritt tells his full version of the story He describes the warning signs that were missed or ignored and the evidence that was kept hidden from the public after the murders He takes on those who say that rock music or video games caused Klebold and Harris to kill their classmates and explores what it might have been that pushed these two young men from supposedly stable families to harbor such violent and apocalyptic dreams Shocking as well as inspirational and insightful *No Easy Answers* is an authentic wake up call for all the psychologists authorities parents and law enforcement personnel who have attempted to understand the murders at Columbine High School As the title suggests the book offers no easy answers but instead presents the unvarnished facts about growing up as an alienated teenager in America today This edition contains a new afterword that

describes what has happened in the United States since Columbine and provides updates on the aftermath of the massacre

How to Grow a Navy Geoffrey Till, 2022-09-02 This book examines the large but neglected topic of the development of maritime power from both an historical and a contemporary point of view Navies have never been more important than they are now in a century becoming as widely expected increasingly and profoundly maritime The growing competition between China and Russia with the United States and its allies and partners around the world is essentially sea based The sea is also central to the world's globalised trading system and to its environmental health Most current crises are either sea based or have a critical maritime element to them What happens at sea will help shape our future Against that background this book uses both history and contemporary events to analyse how maritime power and naval strength has been and is being developed In a reader friendly way it seeks to show what has worked and what has not and to uncover the recurring patterns in maritime and naval development which explain past present and future success and failure It reflects on the historical experience of all navies but in particular it poses the question of whether China is following the same pattern of naval development illustrated by Britain at the start of the 18th century which led to two centuries of naval dominance This book will be of much interest to students of maritime power naval studies and strategic studies as well as to naval professionals around the world

Caught Marie Gottschalk, 2014-12-07 A major reappraisal of crime and punishment in America The huge prison buildup of the past four decades has few defenders today yet reforms to reduce the number of people in U S jails and prisons have been remarkably modest Meanwhile a carceral state has sprouted in the shadows of mass imprisonment extending its reach far beyond the prison gate It includes not only the country's vast archipelago of jails and prisons but also the growing range of penal punishments and controls that lie in the never never land between prison and full citizenship from probation and parole to immigrant detention felon disenfranchisement and extensive lifetime restrictions on sex offenders As it sunders families and communities and reworks conceptions of democracy rights and citizenship this ever widening carceral state poses a formidable political and social challenge In this book Marie Gottschalk examines why the carceral state with its growing number of outcasts remains so tenacious in the United States She analyzes the shortcomings of the two dominant penal reform strategies one focused on addressing racial disparities the other on seeking bipartisan race neutral solutions centered on reentry justice reinvestment and reducing recidivism In this bracing appraisal of the politics of penal reform Gottschalk exposes the broader pathologies in American politics that are preventing the country from solving its most pressing problems including the stranglehold that neoliberalism exerts on public policy She concludes by sketching out a promising alternative path to begin dismantling the carceral state
