The COVID 19 pandemic has impacted virtually every aspect of our lives regardless of where we live. In the initial months many industry reports noted the unexpected positive impact on online digital game sales. Games were not just lockdown proof but boosted by lockdowns. Stay at home orders triggered a rush toward games as an alternative form of entertainment and the ubiquity of mobile phones allowed wider than ever participation. *Gaming and Gamers in Times of Pandemic* studies how the COVID 19 pandemic affected game players, game developers, game journalists, and game scholars alike in many other ways starting with the most direct: illness and sometimes death. Some effects are temporary, others are here to stay.
