Essential Oils and Pets Ann Sullivan,2017-05-24 I hate to admit this but I m not very tech savvy I live out in the boonies on a homestead with farm animals and crops growing year around I recently became curious as to whether or not essential oils could be used on animals and if so what for Essential oils can be used with animals in much the same fashion as they are used with humans They can be used as a topical treatment diffused in an enclosed pen with an animal or diluted and mixed in with the food for internal benefits Pets are an integral part of many families As such families like to be able to provide their pets with every advantage available especially when it comes to illnesses or injuries This guide book reveals several ways

that essential oils can be integrated into the life of your pets Many of the same safety precautions must be adhered to and as always seek professional veterinarian advice before using essential oils on your pets To Your Happiness Wellness Ann Sullivan **CBD Oil for Cat** Deborah Edward,2024-03-13 The benefits of CBD for both humans and dogs are widely discussed but cats are often overlooked in these conversations This prompts the question What advantages does CBD oil offer for cats In essence CBD for cats can yield numerous benefits Similar to humans and dogs cats possess an endocannabinoid system crucial for maintaining optimal health Like other mammals cats have a network of receptors that interact with the compounds present in CBD oil to promote balance in the body Consequently CBD for cats emerges as a viable option for addressing your pet s ailments *HAPPY PETS SMART GADGETS* ROSS.
