## **Metaphysics An Introduction:**

Metaphysics Alyssa Ney,2014-08-13 Metaphysics An Introduction combines comprehensive coverage of the core elements of metaphysics with contemporary and lively debates within the subject It provides a rigorous and yet accessible overview of a rich array of topics connecting the abstract nature of metaphysics with the real world Topics covered include Basic logic for metaphysics An introduction to ontology Abstract objects Material objects Critiques of metaphysics Free will Time Modality Persistence Causation Social ontology the metaphysics of race This outstanding book not only equips the reader with a thorough knowledge of the fundamentals of metaphysics but provides a valuable guide to contemporary metaphysics and metaphysicians Additional features such as exercises annotated further reading a glossary and a companion website [www.routledge.com/cw/neyley](http://www.routledge.com/cw/neyley) will help students find their way around this subject and assist teachers in the classroom

**Process Metaphysics** Nicholas Rescher,1996-01-01 Presents a synoptic compact and accessible exposition of this influential and interesting sector of twentieth century American philosophy    Metaphysics Anna Marmodoro,Erasmus Mayr,2019-03-25 This volume introduces readers to a selected number of core issues in metaphysics that have been central in the history of philosophy and remain foundational to contemporary debates that is substances properties modality and essence causality determinism and free will Anna Marmodoro and Erasmus Mayr take a neo Aristotelian approach both in the selection and presentation of the topics But Marmodoro and Mayr's discussion is not narrowly partisan it consistently presents opposing sides of the debate and addresses issues from different philosophical traditions and encourages readers to draw their own conclusions about them Metaphysics combines a state of the art presentation of the issues that takes into account the most recent developments in the field with extensive references to the history of philosophy The book thus makes topics in contemporary analytical metaphysics easily accessible to readers who have no specific background in contemporary philosophy but rather in the history of philosophy At the same time it will engage readers who do not have any historical background with some key developments within the history of the subject    Metaphysics Archie J. Bahm,1974 An introduction to the philosophy of metaphysics    Metaphysics Jonathan Tallant,2011-12-08 This is the definitive companion to the study of metaphysics It provides students with an accessible comprehensive and philosophically rigorous introduction to all the key concepts issues and debates Ideal for use on undergraduate courses the structure and content of this textbook closely reflect the way metaphysics is studied Thematically structured the text introduces all the various philosophical problems addressed by metaphysics through the idea of truth making a useful lens through which the topic is clearly and concisely explicated With a particular focus on method in contemporary metaphysics the book examines a variety of metaphysical topics including the nature of properties time causation and objects The book offers lucid and incisive coverage of the field of metaphysics its key concepts and current debates Jonathan Tallant's cogent and thorough analysis is supplemented by student friendly features including chapter summaries study questions and a comprehensive guide to

further reading Each chapter includes a series of specially designed mind maps to help students visualise the logical space being explored and how the arguments push in different directions *Metaphysics* Brian Carr,1987 *Metaphysics* Michael J. Loux,2002 This second edition includes a new chapter on the realism antirealism debate a new more user friendly format and examples to clarify difficult concepts it also relates contemporary views to their classical sources

*Contemporary Metaphysics* Michael Jubien,1997-12-08 Each volume in this series provides a clear comprehensive and up to date introduction to the main philosophical topics of contemporary debate *Metaphysics* Bruce Wilshire,1969 **This Is Metaphysics** Kris McDaniel,2020-05-07 Metaphysics the philosophical study of the nature of reality is a dynamic sub field which encompasses many of the most fundamental and elusive questions in contemporary analytic philosophy A concise and focused introduction to contemporary metaphysics This is Metaphysics An Introduction takes readers with minimal technical knowledge of the field on a guided tour of the intellectual landscape of the discipline Approachable and engaging the book covers a broad range of key topics and principles in metaphysics including classification the nature and existence of properties ontology the nature of possibility and necessity and fundamental questions concerning being and existence Each chapter challenges readers to grapple with thought provoking examples that build upon the seminal theoretical contributions of contemporary metaphysicians like Peter van Inwagen and David Lewis and concludes with a Doing Metaphysics section encouraging readers to think through substantive metaphysical questions while weighing possible arguments and objections A thoughtful and comprehensive introduction provides a framework for author Kris McDaniel s pedagogical approach and each section incorporates multi platform online resources and plentiful footnotes to support further reading and deeper conceptual engagement A welcome addition to the popular This is Philosophy series This is Metaphysics is a reader friendly survey of metaphysics for philosophy majors undergraduates in introductory philosophy courses and curious members of the general public interested in investigating this expansive and enigmatic area of study *An Introduction to Metaphysics* Martin Heidegger,1999-01-01 This book contains a series of lectures delivered by Heidegger in 1935 at the University of Freiburg In this work Herdegger presents the broadest and the most intelligible account of the problem of being as he sees this problem First he discusses the relevance of it by pointing out how this problem lies at the root not only of the most basic metaphysical questions but also of our human existence in its present historical setting Then after a short digression into the grammatical forms and etymological roots of the word being Heidegger enters into a lengthy discussion of the meaning of being in Greek thinking letting pass at the same time no opportunity to stress the impact of this thinking about being on subsequent western speculation His contention is that the meaning of being in Greek thinking underwent a serious restriction through the opposition that was introduced between being on one hand and becoming appearance thinking and values on the other *Metaphysics* Keith Campbell,1976 *Metaphysics: A Very Short Introduction* Stephen Mumford,2012-08-30 In this easy to understand introduction Stephen Mumford explores one of the four main branches of

philosophy metaphysics Using practical examples to explore the main issues he presents the ideas in a clear and simple way helping to clarify and unravel the basic questions of this complex and abstract concept **Introduction to Metaphysics** Gabby McCarthy, 2018-10-09 Metaphysics is the branch of philosophy concerned with the nature of existence being and the world Arguably metaphysics is the foundation of philosophy Aristotle calls it the first philosophy or sometimes just wisdom and says it is the subject that deals with the first causes and the principles of things It asks questions like What is the nature of reality How does the world exist and what is its origin or source of creation Does the world exist outside the mind How can the incorporeal mind affect the physical body If things exist what is their objective nature Is there a God or many gods or no god at all Originally the Greek word metaphysikae literally after physics merely indicated that part of Aristotle's oeuvre which came in its sequence after those chapters which dealt with physics Later it was misinterpreted by Medieval commentators on the classical texts as that which is above or beyond the physical and so over time metaphysics has effectively become the study of that which transcends physics This book provides a detailed resume of current knowledge about the Metaphysics **Metaphysics: an Introduction to Philosophy** Bruce W.
