where SCM has been successfully utilised and diminished the lingering issues in construction is scarce The question is why Previous studies have stressed the importance of planning both the construction project as such but also the supply chain and the logistics As an important part of SCM supply chain planning SCP focuses on planning different aspects of the supply chain through involving different members of the supply chain in the planning process SCP in construction is scarce as the planning of the logistics in general Failing to plan the supply chain involving supply chain members in the planning and integrating the processes of planning the supply chains and the construction project can be one reason for the low numbers of successful SCM adoption in construction In improving the SCP in construction this thesis develops a SCP framework for construction that involves the main contractor subcontractors and suppliers The aim is to improve SCP collaboration and eliminate many of the common problems in construction through a SCM and SCP perspective The developed framework is based on an existing planning framework for sales and operations planning This framework is generic and synthesises planning in general It consists of identifying developing outcomes input organisation process key performance measurements and IT tools It is thus necessary to investigate what these aspects means in a construction context Four research objects will be fulfilled Objective 1 Identify common logistical problems and linkages between them Objective 2 Develop a SCP process Objective 3 Develop a SCP organisation Objective 4 Identify performance measurements

The Semiotics of Law in Legal Education Jan M. Broekman, Francis J. Mootz III, 2011-07-06 This book offers educational experiences including reflections and the resulting essays from the Roberta Kevelson Seminar on Law and Semiotics held during 2008 2011 at Penn State University s Dickinson School of Law The texts address educational aspects of law that require attention and that also are issues in traditional jurisprudence and legal theory The book introduces education in legal semiotics as it evolves in a legal curriculum Specific semiotic concepts such as sign symbol or legal language demonstrate how a lawyer s professionally important tasks of name giving and meaning giving are seldom completely understood by lawyers or laypeople These concepts require analyses of considerable depth to understand the expressiveness of these legal names and meanings and to understand how lawyers can say the law or urge such a saying correctly and effectively in the context of a natural language that is understandable to all of us The book brings together the structure of the Seminar its foundational philosophical problems the specifics of legal history and the semiotics of the legal system with specific themes such as gender family law and business law
