## New Religious Movements New Religious Movements:

**The Future of New Religious Movements** David G. Bromley, Phillip E. Hammond, New Ecumenical Research Association (Unification Theological Seminary), 1987    *New Religious Movements* Eileen Barker, 1989 New Religious Movements    **Encyclopedia of New Religious Movements** Peter Clarke, 2004-03 An essential companion to both research and scholarship upon which undergraduates postgraduates lecturers and researchers can all be expected to draw

*The Oxford Handbook of New Religious Movements* James R. Lewis, Inga B. Tollefson, 2016-04-12 The study of New Religious Movements NRMs is one of the fastest growing areas of religious studies and since the release of the first edition of The Oxford Handbook of New Religious Movements in 2003 the field has continued to expand and break new ground In this all new volume James R Lewis and Inga B Tollefson bring together established and rising scholars to address an expanded range of topics covering traditional religious studies topics such as scripture charisma and ritual while also applying new theoretical approaches to NRM topics Other chapters cover understudied topics in the field such as the developmental patterns of NRMs and subcultural considerations in the study of NRMs The first part of this book examines NRMs from a social scientific perspective particularly that of sociology In the second section the primary factors that have put the study of NRMs on the map controversy and conflict are considered The third section investigates common themes within the field of NRMs while the fourth examines the approaches that religious studies researchers have taken to NRMs As NRM Studies has grown subfields such as Esotericism New Age Studies and neo Pagan Studies have grown as distinct and individual areas of study and the final section of the book investigates these emergent fields    *Understanding New Religious Movements* John A Saliba, 2003-09-27 Discussions of any religion can easily raise passions But arguments tend to become even more heated when the religion under discussion is characterized as new Divisions around the study of new religious movements NRMs or cults or nontraditional or alternative or emergent religions are so acute that there is even controversy over what to call them John Saliba strives to bring balance to these discussions by offering perspectives on new religions from different academic perspectives history psychology sociology law theology and counseling This approach provides rich descriptions of a broad range of movements while demonstrating how the differing aims of the disciplines can create much of the controversy around NRMs The new second edition has been updated and revised throughout and includes a new foreword by noted historian of religion J Gordon Melton For classes in religion or the social sciences or for interested individuals Understanding New Religious Movements offers the most objective introduction possible    *The Cambridge Companion to New Religious Movements* Olav Hammer, Mikael Rothstein, 2012-08-30 New religions emerge as distinct entities in the religious landscape when innovations are introduced by a charismatic leader or a schismatic group leaves its parent organization New religious movements NRMs often present novel doctrines and advocate unfamiliar modes of behavior and have therefore often been perceived as controversial NRMs have however in recent years come to be treated in the same way as established religions

that is as complex cultural phenomena involving myths rituals and canonical texts This Companion discusses key features of NRMs from a systematic comparative perspective summarizing results of forty years of research The volume addresses NRMs that have caught media attention including movements such as Scientology New Age the Neopagans the Sai Baba movement and Jihadist movements active in a post 9 11 context An essential resource for students of religious studies the history of religion sociology anthropology and the psychology of religion

### **Historical Dictionary of New Religious**

**Movements** George D. Chryssides,2012 New religious movements commonly known as cults are defined as organizations that have arisen within the last 200 years Most treatments of these movements have typically resorted to sensationalism rather than objectivity and New religious movements tend to receive negative media publicity Despite their unfavorable portrayal in popular culture however new religious movements are a global phenomenon and much remains to be studied about these movements In this newly updated second edition of the Historical Dictionary of New Religious Movements George D Chryssides traces the rise and development of new religious movements throughout the world An updated introduction summarizes the phenomenon of new religious movements and lays out the changes to the dictionary since the 2001 edition while the main body of the dictionary consists of close to 600 cross referenced entries on key figures ideas themes and places related to various new religious movements An index organizes the information in the dictionary and a comprehensive bibliography leads the researcher to further sources This book is an excellent access point for students researchers and anyone wanting to know more about new religious movements

### **The Elementary Forms of the New**

**Religious Life** Roy Wallis,2019-03-19 This book first published in 1984 examines the whole range of new religious movements which appeared in the 1960s and 1970s in the West It develops a wide ranging theory of these new religions which explains many of their major characteristics Some of the movements are well known such as Scientology Krishna Consciousness and the Unification Church Others such as the Process Meher Baba and 3 HO are much less known While some became international others remained local in other ways too such as style belief organisation they exhibit enormous diversity The movements studied here are classified under three ideal types world rejecting world affirming and world accommodating and from here the author develops a theory of the origins recruitment base characteristics and development patterns which they display The book offers a critical exploration of the theories of the new religions and analyses the highly contentious issue of whether they reflect the process of secularisation or whether they are a countervailing trend marking the resurgence of religion in the West

*Researching New Religious Movements* Elisabeth Arweck,2006 This cutting edge analysis of American and European new religious movements explores the controversies between religious groups and the majority interests which oppose them It asks how modern societies can best respond to new religious movements

*The Oxford Handbook of New Religious Movements* James R Lewis,2008-07-17 The Oxford Handbook of New Religious Movements both covers the current state of the field and breaks new ground Its contributors drawn from both sociology and

religious studies are leading figures in the study of NRMs     [The Bloomsbury Companion to New Religious Movements](#)  
George D. Chryssides,Benjamin E. Zeller,2014-01-02 The Bloomsbury Companion to New Religious Movements covers key themes such as charismatic leadership conversion and brainwashing prophecy and millennialism violence and suicide gender and sexuality legal issues and the portrayal of New Religious Movements by the media and anti cult organisations Several categories of new religions receive special attention including African new religions Japanese new religions Mormons and UFO religions This guide to New Religious Movements and their critical study brings together 29 world class international scholars and serves as a resource to students and researchers The volume highlights the current state of academic study in the field and explores areas in which future research might develop Clearly and accessibly organised to help users quickly locate key information and analysis the book includes an A to Z of key terms extensive guides to further resources a comprehensive bibliography and a timeline of major developments in the field such as the emergence of new groups publications legal decisions and historical events     **New Religious Movements** Elijah Siegler,2007 Using a historical and cultural approach New Religious Movements takes the approach that new religious movements are neither new nor inherently evil or dangerous The Introduction colorfully demonstrates the variety of NRMs today and how our first impressions of them may be wrong Also this text argues that NRMs are a normal response to cultural and social change not just something that has happened to the Western World since the 1960s This book's topics include Defining New Religious Movements Modern Heresy Esoteric Revival Asian NRMs African NRMs Islamic NRMs and the Global Future of NRMs An interesting read for those interested in New Religious Movements     *Comprehending Cults* Lorne L. Dawson,1998 Cults what do we really know about them Long the focus of controversy cults or what sociologists prefer to call new religious movements have been studied by scholars for years Yet little of this information has made its way into public awareness This book summarizes synthesizes and assesses the results of years of research into new religious movements by historians sociologists and psychologists of religion Organized in terms of seven of the most commonly asked questions about cults e g Why did they emerge Who joins them and why Why do some become violent the book clarifies the issues at stake seeking to replace prejudice and speculation with reliable insights into the nature of cultactivity Written in an easy to read yet detailed manner Comprehending Cults provides an excellent introduction to the study of new religious phenomena     *New Religious Movements* Eileen Barker,1982 This is a collection of 19 papers that treat new religious movements as strategic sites for understanding societal patterns The focus of this volume is on five topics comparative perspectives historical patterns societal responses to cultural imports what new religious movements signify about a society and social perceptions of new religious movements     *New Religious Movements* Bryan R. Wilson,Jamie Cresswell,1999 Focusing on five countries Italy Brazil Germany Britain and the United States New Religious Movements offers a comprehensive and wide ranging study of the phenomena and impact of new religions     *New Religious Movements in Europe* Johannes Aagaard,Helle

Meldgaard, 1997 RENNER Studies on New Religions is an initiative supported by the Danish Research Council for the Humanities. The series was established to publish books on alternative spiritual movements from a wide range of perspectives. The books will appeal to an international readership of scholars, students and professionals in the study of religion, theology, the arts and the social sciences. It is hoped that this series will provide a proper context for scientific exchange between these often competing disciplines. Stimulated by travel, mass media and education, individuals have spent the twentieth century questioning organized religion and at the start of a new millennium many are turning to spirituality rooted in ancient practice but modernized by secular experience. In this volume an international group of authors surveys the religious and spiritual movements growing in popularity in Western Europe including, to name a few, theosophy, Transcendental Meditation, the Rosicrucians, the Occult and Hare Krishna.

**Cults and New Religions** Douglas E. Cowan, David G. Bromley, 2015-06-15

This unparalleled introduction to cults and new religious movements has been completely updated and expanded to reflect the latest developments. Each chapter reviews the origins, leaders, beliefs, rituals and practices of a NRM, highlighting the specific controversies surrounding each group. A fully updated, revised and expanded edition of an unparalleled introduction to cults and new religious movements. Profiles a number of the most visible, significant and controversial new religious movements, presenting each group's history, doctrines, rituals, leadership and organization. Offers a discussion of the major controversies in which new religious movements have been involved, using each profiled group to illustrate the nature of one of those controversies. Covers debates including what constitutes an authentic religion, the validity of claims of brainwashing, techniques, the implications of experimentation with unconventional sexual practices and the deeply rooted cultural fears that cults engender. New sections include methods of studying new religions in each chapter as well as presentations on groups to watch.

**New Religious Movements in the Twenty-first Century** Phillip Charles Lucas, Thomas Robbins, 2004 First

Published in 2004. Routledge is an imprint of Taylor Francis, an Informa company. *Controversial New Religions*. Norway: James R. Lewis, Associate Professor of Religion, University of Tromsø, Department of History of Religions, University of Copenhagen; Jesper Aagaard Petersen, Teaching Assistant, 2004-11-04. This book complements Lewis's *Handbook of New Religious Movements*. The former provides an overview of the state of the field. This volume collects papers on those specific New Religious Movements (NRMs) that have generated the most scholarly attention. With few exceptions, these organizations are also the controversial groups that have attracted the attention of the mass media, often because they have been involved in or accused of violent or anti-social activities. Among the movements to be profiled are such groups as the Branch Davidians, Heaven's Gate, Aum Shinrikyo, Solar Temple, Scientology, Falun Gong and many more. The book will function as a reference for scholars as a text for courses in NRMs and will also appeal to non-specialists, including reporters, law enforcement, public policy makers and others.

**New Religious Movements** Derek Daschke, W. Michael Ashcraft, 2005-06-17. An original collection of primary documents conveying the wide array of ideas connected to new religious movements. New Religious

Movements is a highly unique volume bringing together primary documents conveying the words and ideas of a wide array of new religious movements NRMs and offering a first hand look into their belief systems Arranged by the editors according to a new typology the text allows readers to consider NRMS along five interrelated pathways from those that offer new perceptions of existence or new personal identities to those that center on relationships within family like units to those movements that highlight the need for recasting the social order or anticipate the dawn of a new age The volume includes original documents from groups such as the Unification Church Theosophy Branch Davidians Wicca Jehovah's Witnesses Santeria and Seventh Day Adventists as well as many others Each section is prefaced by a contextual introduction and concludes with a list of sources for further reading New Religious Movements offers a rare inside look into the worldviews of alternative religious traditions

Delve into the emotional tapestry woven by Emotional Journey with in **New Religious Movements New Religious Movements** .
