New Testament Theology An Introduction Library Of Biblical Theology:

New Testament Theology Prof James D. G. Dunn, 2010-09-01 In this volume in the Library of Biblical Theology series James D G Dunn ranges widely across the literature of the New Testament to describe the essential elements of the early church's belief and practice Eschatology grace law and gospel discipleship Israel and the church faith and works and most especially incarnation atonement and resurrection Dunn places these and other themes in conversation with the contemporary church's work of understanding its faith and life in relation to God's self revelation in Jesus Christ **Biblical Theology** John Goldingay, 2016-11-01 John Goldingay takes the New Testament as a portal into the complete canon of Scripture Without searching out an overarching unity he allows Scripture's diversity and tensions to remain letting Scripture speak to us in its own voice This landmark biblical theology is hermeneutically dexterous biblically expansive and nourishing to mind soul and proclamation Biblical Theology Prof. Leo Perdue, 2010-10-01 One of the thorniest problems in theological study is the relationship between biblical studies on the one hand and constructive theology on the other Theologians know that the Bible is the core source document for theological construction and hence that they must be in conversation with the best in critical study of Scripture For many biblical scholars the point of what they do is to help the biblical text speak to today's church and world and hence they would do well to be in conversation with contemporary theology Yet too often the two groups fail to engage each other's work in significant and productive ways The purpose of the Library of Biblical Theology and this introductory volume to it is to bring the worlds of biblical scholarship and constructive theology together It will do so by reviving biblical theology as a discipline that describes the faith of the biblical periods on the one hand and on the other hand articulates normative understandings of modern faith and practice In this volume the authors begin by providing an overview of the history and possible future of biblical theology They introduce biblical theology as a fundamentally contrastive discipline one that is neither dogmatic theology seeking to explain the official teachings of a particular Christian tradition nor is it a purely historical approach to Scripture eschewing questions of the Bible's contemporary message and meaning Rather biblical theology takes seriously both the need to understand the message of Scripture in its particular historical context and the need to address that message to questions that confront contemporary human life **Biblical Theology of the New Testament** Christian Friedrich Schmid, 1877 **Biblical theology of the New Testament, tr. by D. Eaton (J.E. Duguid).** Bernhard Weiss, 1883 **Biblical Theology of the New Testament** Bernhard Weiss, 1885 **An Introduction to New Testament Thought** Frederick Clifton Grant, 1950 A comprehensive survey of key ideas in New Testament theology written by a leading scholar Provided by publisher **Old and New Testament Theology** Heinrich Ewald, 1888 **A Theological Introduction to the Pentateuch** Richard S. Coetsee, Francois P.

Viljoen,2021-11-30 Life is a primary theme in Scripture expressed in the rich diversity of the various books corpora and genres of Scripture Much has been published on what Scripture teaches about life and death To date however no comprehensive biblical theology in which the concept of life is traced throughout the different books and corpora of the Old and New Testament has been published It is this lacuna that this book aims to fill assuming that such an approach can provide a valuable contribution to the theological discourse on life and related concepts The primary aim of this book is to give an indication of the different nuances of the concept of life in the various books and corpora of the Old and New Testament by providing the reader with a book by book overview of the concept of life in Scripture The secondary aim is to give an indication of the overall use and function of the concept of life in the Old Testament the New Testament and Scripture as a whole The latter is provided by using the findings of the book by book overview of the concept of life in Scripture to draw the lines together
