Meta The Second Wave:

The Second Wave Tom Reynolds, 2014-09-30 Summer is over and Connor Connolly is headed back to school to start junior year. But with metabands falling from the sky the world has changed overnight and now there are thousands of new metahumans. Just like regular humans not all metahumans are using their new powers for good. Now Connor is not only dealing with the pressures of being a super human and training with his mentor Midnight he also has to balance relationships with the people he cares for most. People who find themselves on different sides of the fence when it comes to their feelings about the new metahumans and the impact they're having on everyone else's lives. As the world struggles to adjust to the events of the past few months Connor's alter ego Omni works with The Agency to apprehend law breaking metahumans and detain them at the Silver Island Meta Detention Facility. When he's recruited for a job assisting the government agency with disarming one of the most powerful and secretive metas in Bay View City he never expects the devastation of that mission or the affect it will have on both humans and metas. Is Connor capable of becoming the hero he wants to be? Unedited summary from back cover

[A Second-Wave Positive Psychology in Counselling Psychology](#) Paul T. P. Wong, 2023-03-31 This book on the new paradigm of existential positive psychology (PP2.0) or second wave positive psychology focusses on the importance of transcending or transforming negative experiences and emotions to achieve durable flourishing. The book offers exciting new concepts and skills in the practice of counselling psychology. Positive psychology is evolving due to changing times and circumstances. Instead of relying only on the positives it posits the importance of navigating an optimal balance between positives and negatives in each context. It emphasizes the importance of inner peace, balance and harmony rather than the pursuit of happiness or positive emotions. More importantly PP2.0 is based on meeting the basic human needs for 1) the need to be liberated from the suffering and human bondage, 2) the hope of achieving a meaningful future, 3) the need to relate to others in a compassionate and authentic way so that people can experience genuine kindness and love, and 4) the deep seated spiritual need for a sense of oneness with a Higher Power or nature. This volume explores ways to help individuals to be liberated from their inherent limitations and at the same time empower them to achieve their highest aspirations. With an updated
