New South African Review 3 The Second Phase Tragedy Or Farce:

New South African Review 3 Stephanie Allais,Prishani Naidoo,Devan Pillay,Roger Southall,2013-03-01 An evaluation of the ANC's second phase of the national democratic revolution In the face of the continuing national tragedy of the inequality poverty and unemployment which have triggered rising working class discontent around the country the ANC announced a second phase of the national democratic revolution to deal with the challenges Ironically the ANC post Mangaung has resolved to preserve the core tenets of the minerals energy financial complex that defined racial capitalism while at the same time ratcheting up the revolutionary rhetoric to keep the working class and marginalised onside If the first phase was a tragedy of the unmet expectations of the majority is the second phase likely to be a farce The chapters in this volume are written by experts in their fields and address issues of politics power and social class economy ecology and labour public policy and social practice and South Africa beyond its borders They examine some of these challenges and indicate that they are as much about the defective content of policies as their poor implementation The third volume of the New South African Review continues the series by providing in depth analyses of the key issues facing the country today

Theorising the Practice of Community Development Peter Westoby,2016-02-17 Based on 25 years of community development practice six of which have been lived in South Africa Peter Westoby's ground breaking monograph moves away from dominant normative accounts of community development to provide an appreciative and critical analysis of concrete examples of community development theory and practice By examining community development stories as experienced on the ground Westoby is able to show how the poor are organising themselves using various forms of community development as well as demonstrating how the state and non state actors are attempting to organise engage or accompany the poor through community development The book also breaks new ground in theorising the practice of community development drawing inductively from the stories analysed The diversity of South African contexts and the proliferation of different kinds of community practice make this a hugely difficult task Despite this Westoby argues it is one worth undertaking given the seriousness of the challenges facing the poor and progressive social change agents within South Africa In this undertaking Westoby draws upon a unique analytical framework to help illuminate current community development policy and programme challenges along with practice dilemmas and wisdom
