### **Legal Issues of Digitalisation, Robotization and Cyber Security in the Light of EU Law** Nadežda

Šišková, 2024-07-15 Legal Issues of Digitalisation Robotization and Cyber Security in the Light of EU Law By Nadežda Šišková

The current extremely rapid and dynamic development of modern technologies and the unprecedented degree of their integration into the everyday life of every person are radically changing the previous *modus vivendi* in the society. The emergence of the Internet and the continuous development of digital technologies have brought into fore a number of new legal problems and issues that require a timely solution and proper and effective legal regulation by the EU as one of the leading regulators of the digital world. The technological developments have opened a new window to the borderless world of the Internet giving a person an opportunity to exercise his/her fundamental rights at a new and unprecedented level. This unique book thus presents the key information and solves the related problems concerning the legal regulation of the usage of modern technologies in everyday life. The book is conceived in a form of a collective monograph prepared by an international team of renowned researchers from famous European Universities: Heidelberg University, Palacký University in Olomouc, Tallinn University of Technology, Comenius University in Bratislava and Shevchenko University in Kyiv and scientific legal societies as well as top level experts from practice. This team is representing the countries with the highest level of integration of modern technologies: Estonia, Germany, Czech Republic, Slovakia or has a unique experience with provision of cyber security in the extreme conditions. The book creates a main output from the research project with the title "The EU and the Challenges of Modern Society: legal issues of digitalization, robotization, cyber security and prevention of hybrid threats" granted by the EACEA in the category of Jean Monnet network. The publication of the book is supported by the financial subsidy in the amount of 3 000 Euro sent by Palacký University to the Publisher Intersentia. Topics that the authors focus on: The European approach to the right to Internet access, Artificial Intelligence and the Challenges for the Theory of Human Rights, GDPR and the Right to Personal Data and Privacy in a Modern Society, Consumer Protection in the on-line World, Future challenges in consumer protection, Competition Law in a Digital Economy, EU Regulation of On-line Platforms, Pricing Algorithms and Anticompetitive Agreements, EU legal framework of software security vulnerabilities, New Cybersecurity Rules for Markets in Crypto Assets in the EU Law. The primary readers/users are legal experts in European law, legal researchers and scientific societies dealing with EU matters, IT specialists, personal data specialists, scholars and students in European countries and America, UK, USA, EU and candidate countries etc. compulsory source for students of the Palacký University, Czech Republic, Heidelberg University, Germany, Tallinn Technical University, Estonia, Comenius University in Bratislava, Slovakia, Kyiv Shevchenko University, Ukraine. Benefits the analysis of the most important and thorny legal issues of the process of digitalisation, robotization and providing of cyber security, the proposals *de lege ferenda* concerning the optimal ways of legal regulation of the mentioned process. Great number of key legislative acts were adopted at the level of

the EU The conclusions will summarise the key ideas of the authors and the proposals de lege ferenda concerning the whole text The same refers to the preface which will be prepared by the Vice President of the European Commission Vera Jourov responsible for Values and Transparency which will relate to the whole text **FCC Record** United States. Federal Communications Commission,2016 **Coherence between Data Protection and Competition Law in Digital Markets** Klaudia Majcher,2023-10-09 In digital markets data protection and competition law affect each other in diverse and intricate ways Their entanglement has triggered a global debate on how these two areas of law should interact to effectively address new harms and ensure that the digital economy flourishes Coherence between Data Protection and Competition Law in Digital Markets offers a blueprint for bridging the disconnect between data protection and competition law and ensuring a coherent approach towards their enforcement in digital markets Specifically this book focuses on the evolution of data protection and competition law their underlying rationale their key features and common objectives and provides a series of examples to demonstrate how the same empirical phenomena in digital markets pose a common challenge to protecting personal data and promoting market competitiveness A panoply of theoretical and empirical commonalities between these two fields of law as this volume shows are barely mirrored in the legal enforcement policy and institutional approaches in the EU and beyond where the silo approach continues to prevail The ideas that Majcher puts forward for a more synergetic integration of data protection and competition law are anchored in the concept of sectional coherence This new coherence centred paradigm reimagines the interpretation and enforcement of data protection and competition law as mutually cognizant and reciprocal allowing readers to explore in an innovative way the interface between these legal fields and identify positive interactions instead of merely addressing inconsistencies and tensions This book reflects on the conceptual practical institutional and constitutional implications of the transition towards coherence and the relevance of its findings for other jurisdictions **ACT 36 in Just 7 Steps** Maria Filsinger,Shaan Patel,2013-10-08 Perfect score student reveals strategies to ace the test Cover New Mexico Law Review ,2013 **European Yearbook of Constitutional Law 2021** Jurgen de Poorter,Gerhard van der Schyff,Maarten Stremler,Maartje De Visser,2022-06-06 The European Yearbook of Constitutional Law EYCL is an annual publication devoted to the study of constitutional law It aims to provide a forum for in depth analysis and discussion of new developments in the field both in Europe and beyond This third volume of the EYCL focuses on constitutional advice an underexplored topic of legal scholarship today and addresses this situation by looking beyond constitutional law s familiar focus on the classic separation of powers and the main legislative executive and judicial bodies implied by this construct The attention is shifted to mapping and analysing the advisory bodies and functions grouped around and in support of the legislators administrators and judges at the frontline of the constitutional edifice which is accomplished through national comparative and transnational perspectives on constitutional advice from Europe and beyond Addressing the topic of constitutional advice is necessary to broaden and deepen not only our understanding of advice as a

field in its own right but also as a way of rendering a fuller account of contemporary constitutionalism. Also the increasing political polarisation across many societies today underscores the need to study constitutional advice on topics of significance in an attempt to bridge divides and end gridlock. This book will be of special interest to constitutional scholars and legal scholars more generally as well as to political scientists. In addition, government officials, judges and policy makers wishing to better understand the legal mechanisms and avenues when it comes to rendering or receiving advice in the contemporary constitutional context will find much of relevance. Jurgen de Poorter is professor at Tilburg Law School, Department of Public Law and Governance. Gerhard van der Schyff is associate professor at Tilburg Law School, Department of Public Law and Governance. Maarten Stremmer is assistant professor at Maastricht University, Faculty of Law, Department of Public Law. Maartje De Visser is associate professor at Yong Pung How School of Law, Singapore Management University, Singapore.

Studies in Law, Politics, and Society. Austin Sarat, 2021-01-18. This volume brings together an interdisciplinary collection of scholars to critically examine issues around hatred and the law. With chapters on different elements of the nexus between hatred and law, the volume makes a key contribution to the field and is essential reading for legal scholars. New Media and Freedom of Expression. András Koltay, 2019-07-25. The principles of freedom of expression have been developed over centuries. How are they reserved and passed on? How can large internet gatekeepers be required to respect freedom of expression and to contribute actively to a diverse and plural marketplace of ideas? These are key issues for media regulation and will remain so for the foreseeable decades. The book starts with the foundations of freedom of expression and freedom of the press and then goes on to explore the general issues concerning the regulation of the internet as a specific medium. It then turns to analysing the legal issues relating to the three most important gatekeepers whose operations directly affect freedom of expression: ISPs.
