*Exploring the Impact of Social Media on Cyber*

*security Threats and Mitigation Strategies* Md Ishtiaq Hossain, 2025-09-07 The increasing popularity and improvement of social media have brought us a lot of benefits including a convenience relationship and a more responsive mass media. But along with this metamorphosis, there has been a proliferation of cyber security threats that have increased both in size and complexity. From phishing and malware to identity theft and disinformation, social media sites such as Facebook, Instagram, Twitter, and TikTok are perfect platforms for a range of cyber threats. AI cyber criminals have already started using various AI artificial intelligence tools to launch targeted attacks which include AI-powered phishing, deep fakes, and social engineering. This ever-changing nature of threats has made the role of defense and in an offensive stance, offense systems more and more critical. This paper examines the forms of cyber threats that are emerging in social media as well as the new risks that AI and other digital technologies have contributed and existing means to mitigate cyber risks. It highlights the need for user awareness, multi-factor authentication, and monitoring of accounts for individuals as well as organizations. Moreover, it emphasizes the need for developing integrated proactive defenses to address the challenge of growing cyber threats in an increasingly social world. Through real-life examples and a look at advances in threat detection, this paper identifies practical ways to address the increasing cyber risk resulting from social media use and achieve safer online interactions.

**Postinternet Art and Its Afterlives** Ian Rothwell, 2023-12-19 Focusing on the postinternet art of the 2010s, this volume explores the widespread impact of recent internet culture on the formal and conceptual concerns of contemporary art. The postinternet art movement is splintered and loosely defined, both in terms of its form and its politics, and has come under significant critique for this reason. This study will provide this definition, offering a much-needed critical context for this period of artistic activity that has had and is still having a major impact on contemporary culture. The book presents a picture of what the art and culture made within and against the constraints of the online experience: look, sound, and feel like. It includes works by Petra Cortright.

Jon Rafman Jordan Wolfson DIS Amalia Ulman and Thomas Ruff and presents new analyses of case studies drawn from the online worlds of the 2010s including vaporwave anonymous image board culture irony bros and edgelords viral extreme sports stunts and GIFs The book will be of interest to scholars working in art history contemporary art and digital culture
