original components An emphasis on how cutting edge technologies such as AI machine learning virtual reality and blockchains can serve responsible and sustainable business Each chapter now ends with summary questions that be used in

class or for assessment A new and powerful Foreword by Professor David Cooperrider a CSR leader and the father of appreciative inquiry and several new endorsements Additional exercises and questions for interactive learning together with

revised online materials such as a teaching guide and PowerPoint presentations Updated references and links after each case study and chapter with up to date literature and thinking

[The Digital Transformation of the Automotive Industry](#) Uwe

Winkelhake, 2017-12-15 Building on his decades of experience as a consultant and project manager in the automotive industry the author develops comprehensive and pragmatic recommendations for action regarding the digital transformation

of the automotive and supplier industries At the heart is the transition from a vehicle focused to a mobility oriented business model Based on the catalysts of the digital change four digitisation fields are structured and a roadmap for their

transformation is presented The topics of comprehensive change in corporate culture and an agile and efficient information technology are covered in detail as vital success factors Selected practical examples of innovative digitisation projects

provide additional ideas and impulses An outlook on the automotive industry in the year 2040 completes the discourse
