School of Education this comprehensive collection features research based mathematical tasks that appeal to students and connect to their daily lives while generating invaluable information for educators. Using assessments linked to NCTM standards and carefully crafted rubrics that cover all elementary grade levels and mathematics topics, teachers can analyze the learning components of each task and show individual levels of success. Adjust instructional strategies for an entire class or target individual learning needs. Maintain a focus on accessibility and equity for all students. Develop and refine students' mathematical thinking skills and prepare students for high stakes tests. This resource provides powerful tools for delivering meaningful instruction, building students' confidence and significantly increasing their skills and performance in mathematics.

*Everyday Mathematics*, 2004 This grade level specific handbook provides classroom tested techniques and ideas to make assessment and instruction more manageable, productive and exciting as well as offering a more complete picture of each student's progress and instructional needs through techniques and tools from the four assessment areas: ongoing product, periodic and outside tests. The Assessment Handbook includes suggestions for observing students, keeping anecdotal records following student progress and encouraging students to reflect on and communicate both what they have learned and how they feel about mathematics.
