*Zones of Control* Pat Harrigan, Matthew G. Kirschenbaum, 2016-04-15 Examinations of wargaming for entertainment education and military planning in terms of design critical analysis and historical contexts Games with military themes date back to antiquity and yet they are curiously neglected in much of the academic and trade literature on games and game history This volume fills that gap providing a diverse set of perspectives on wargaming's past present and future In *Zones of Control* contributors consider wargames played for entertainment education and military planning in terms of design critical analysis and historical contexts They consider both digital and especially tabletop games most of which cover specific historical conflicts or are grounded in recognizable real world geopolitics Game designers and players will find the historical and critical contexts often missing from design and hobby literature military analysts will find connections to game design and the humanities and academics will find documentation and critique of a sophisticated body of cultural work in which the complexity of military conflict is represented in ludic systems and procedures Each section begins with a long anchoring chapter by an established authority which is followed by a variety of shorter pieces both analytic and anecdotal Topics include the history of playing at war operations research and systems design wargaming and military history wargaming's ethics and politics gaming irregular and non kinetic warfare and wargames as artistic practice Contributors Jeremy Antley Richard Barbrook Elizabeth M Bartels Ed Beach Larry Bond Larry Brom Lee Brimmicombe Wood Rex Brynen Matthew B Caffrey Jr Luke Caldwell Catherine Cavagnaro Robert M Citino Laurent Closier Stephen V Cole Brian Conley Greg Costikyan Patrick Crogan John Curry James F Dunnigan Robert J Elder Lisa Faden Mary Flanagan John A Foley Alexander R Galloway Sharon Ghamari Tabrizi Don R Gilman A Scott Glancy Troy Goodfellow Jack Greene Mark Herman Kacper Kwiatkowski Tim Lenoir David Levinthal Alexander H Levis Henry Lowood Elizabeth Losh Esther MacCallum Stewart Rob MacDougall Mark Mahaffey Bill McDonald Brien J Miller Joseph Miranda Soraya Murray Tetsuya Nakamura Michael Peck Peter P Perla Jon Peterson John Prados Ted S Raicer Volko Ruhnke Philip Sabin Thomas C Schelling Marcus Schulzke Miguel Sicart Rachel Simmons Ian Sturrock Jenny Thompson John Tiller J R Tracy Brian Train Russell Vane Charles Vasey Andrew Wackerfuss James Wallis James Wallman Yuna Huh Wong Business India, 2010-04 **Journal of Peace Research**, 2010

*Contested Holy Cities* Michael Dumper, 2019-05-14 Examining contestation and conflict management within holy cities this book provides both an overview and a range of options available to those concerned with this increasingly urgent phenomenon In cities in India the Balkans and the Mediterranean we can see examples where religion plays a dominant role

in urban development and thus provides a platform for conflict Powerful religious hierarchies the generation of often unregulated revenues from donations and endowments the presence of holy sites and the enactment of ritualistic activities in public spaces combine to create forms of conflicts which are arguably more intense and more intractable than other forms of conflicts in cities The book develops a working definition of the urban dimension of religious conflicts so that the kinds of conflicts exhibited can be contextualised and studied in a more targeted manner It draws together a series of case studies focusing on specific cities the kinds of religious conflicts occurring in them and the international structures and mechanisms that have emerged to address such conflicts Combining expertise from both academics and practitioners in the policy and military world this interdisciplinary collection will be of particular relevance to scholars and students researching politics and religion regional studies geography and urban studies It should also prove useful to policymakers in the military and other international organisations
