Die Grundidee ist, dass jede Zelle acht Nachbarn hat, die es liegt. Eine in viele kleine Quadrate eingeteilte Fläche vor. Folgende Regeln sind definiert: die festlegen, wann eine Zelle lebendig wird. The causes for this dramatic decline are a regular topic in public debates. This book analyzes the participation of Germans in European Bundestag Parliament and Landtag elections since 1979. With its broad research design the book integrates the most important approaches of empirical electoral research. In the first part of the book turnout is described within its geographic and social context by means of data from official statistics. However individual attitudes and motives of the voters are even more important for the interpretation of declining turnout and are thus examined in the second part of the book. The weakening of social norms and political dissatisfaction has dramatic consequences for turnout and cannot be **A Heterogeneous Electorate** Romain Lachat, 2007
