Shawn McReynolds, 2007 The completely revised and only authorized Labs and Study Guide for the Cisco Networking Academy Program CCNA 1 curriculum. A portable classroom resource that supports the topics in the CCNA 1 curriculum aligning 1.1 with course modules. Includes all the labs in the online curriculum as well as additional instructor created challenge labs for extended learning and classroom exercises. Written by leading Academy instructor Shawn McReynolds who bring a fresh voice to the course material. The all new Labs and Study Guide titles combine the best of the former Lab Companions and Engineering Journal and Workbooks with new features to improve the student's hands on skills and reinforce the topics for each CCNA course. Networking Basics CCNA 1 Labs and Study Guide is a complete collection of the lab exercises specifically written for the CCNA 1 course in the Cisco Networking Academy Program designed to give students hands on experience in a particular concept or technology. Each lab contains an introductory overview, a preparation tools required section, explanations of commands and step by step instructions to reinforce the concepts introduced in the online course and covered in the Companion Guide. NEW Challenge labs written by Academy instructors tested in their classrooms will be included as additional or alternative labs. The Study Guide section is designed to provide additional exercises and activities to reinforce students understanding of the course topics preparing them for the course assessments. As a study guide it will also continue to provide ample writing opportunities to guide students into the habit of keeping notes on networking topics.
