Protzel, 1992 A Neural Network Solution to an Inverse Spectral Problem Grahame Jones, 1995 **The Numerical Solution of Neural Network Training Problems** S. Saarinen, R. Bramley, George Cybenko, 1991 The analysis and experimental results in this paper lead to the conclusion that many network training problems are ill conditioned and may not be solved more efficiently by higher order optimization methods While our analyses are for completely connected networks they extend to networks with sparse connectivity as well Our results suggest that neural networks can have considerable redundancy in parameterizing the function space in a neighborhood of a local minimum independently of whether or not the solution has a small residual
