Methods of Teaching Modern Languages (Classic Reprint) A. Marshall Elliott, 2015-07-08 Excerpt from Methods of Teaching Modern Languages Other unless we recast our methods and show by convincing results that there is abundant material for our work The subject matter is surely not at fault with reference to the present abnormal position this branch of learning holds in the estimation of scholars Obloquy has been thrown upon it because of unjust prejudices in certain cases in others because the new comer does not tread the accustomed ruts of a traditional creed It is therefore viewed with suspicion but until its powers shall have been tested by the same dis About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works [How to Teach a Foreign Language \(Classic Reprint\)](#) Otto Jespersen, 2017-11-21 Excerpt from How to Teach a Foreign Language When in accordance with a wish expressed by English and American friends I determined to have my Sprag undemz sm ng translated into English I found it difficult to decide what to retain and what to leave out of the original So much of what I had written appeared to me to apply more or less exclusively to Danish schools and Danish methods and I had too little personal experience of the practice of English teachers or of English school books to be quite sure of the advisability in each case of including or excluding this or that remark I have However made my choice to the best of my ability and if some parts of my criticism are not altogether applicable to English methods I hope I may be excused on the plea that what is now the really important thing is less the destruction of bad old methods than a positive indication of the new ways to be followed if we are to have thoroughly efficient teaching in modern languages About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works [The Teaching of Foreign Languages](#) F. B. Kirkman, 2015-07-12 Excerpt from The Teaching of Foreign Languages Principles and Methods The main object of this work is to supply a clear statement illustrated by examples from experience of the principles that underlie the teaching of a living foreign language for they alone can supply the necessary standards by which to measure the relative value of the various methods it is possible to adopt It is hoped that the book may also prove useful to the student of methods

by giving him starting points for further research To this end several of the problems that need investigation have been indicated Among the most pressing may here be mentioned 1 the best method of teaching foreign literature 2 and composition 3 the teaching of pronunciation in detail 4 the application of the oral method to the teaching of grammar and vocabulary Each of these subjects supplies in itself matter for an important monograph An account of a tentative beginning in the experimental method applied to the teaching of foreign languages has been given in the form of an Addendum About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The Oral Method of Teaching Languages Harold E. Palmer, 2015-07-03 Excerpt from The Oral Method of Teaching Languages A Monograph on Conversational Methods Together With a Full Description and Abundant Examples of Fifty Appropriate Forms of Work Dear Mrs Powers A few months ago when I was busy correcting the proofs of my Principles of Language Study one of my colleagues asked me why that book should not be followed up by one to be entitled How to Conduct a Conversation Course He went on to say that the demand for language lessons on a conversational basis was rapidly increasing not only in England but all over the world and that there was apparently not a single book yet in existence which gave clear and precise indications to teachers as to how such a course should be conducted it was left to each individual teacher to work out his own system good bad or indifferent The idea very naturally appealed to me I realized how much I should have welcomed such a book in my early teaching days and how helpful it would have been to me years ago when few teachers ventured off the beaten track of grammar translation and reading With this in my mind I wrote what is now contained in the last four pages of the book herewith presented to the public and as I went on it became more and more evident how vague and ambiguous the term conversation is About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *“Classical” Instruction: its use and abuse. Patzer, 2015-07-13 Excerpt from Modern Methods of Teaching Language Reading Spelling The methods of teaching Language Reading and Spelling as presented in this volume are the result of many years of experience of the author both as
