Nikola Tesla Spaceman Michael X:

The UFO Literature Richard Michael Rasmussen,1985 Nikola Tesla: Man Or Spaceman? Michael X,2015-12-01 New Saucerian Press presents an official reprint from the dawn of the New Age Michael X s Tesla Man or Spaceman If we read the usual textbooks we are told we know who Nikola Tesla really was but we are only told that he discovered the principle for alternating current the ordinary AC electricity in your home What we are NOT told is that Tesla also carried out experiments and devised plans for inventions not only ahead of their time but which would also even today be considered science fiction During his latter days Tesla became more and more secretive about his inventions even to his close friends and students It is alleged that immediately after his death his files were seized by the CIA These secrets were locked away and have only recently begun showing up again in the form of propellantless technology advertised by NASA Along the way many UFO researchers were hushed up or silenced by the MIB simply for knowing too much about flying saucers Just who is making the money off of Tesla s many inventions today Who is responsible for the abductions of scores of UFO witnesses and researchers Was Tesla somehow getting ideas for his inventions from interplanetary or interdimensional beings The information in this pamphlet provided by the author Michael X seeks to answer these questions and more Bibliography of Sources on the Region of Former Yugoslavia Rusko Matulić,1998 This exhaustive bibliography compiles articles related to the former Yugoslavian region The over 12 000 entries are broken down into sixteen areas of scholarship 1 900 of these deal exclusively with events in the area s recent history The New Science of Consciousness Survival and the Metaparadigm Shift to a Conscious Universe Dr. Alan Ross Hugenot,2016-06-30 Alan Hugenot lectures on the Leading Edge Science of the Afterlife he concluded that the entire universe is conscious and that this explains both near death experiences and certain paradoxes of quantum theory As someone with a physics degree I know that Hugenot s basic idea of a conscious universe is neither crazy nor new Erwin Schrödinger one of the fathers of quantum physics was an avid student of Hindu philosophy and believed something similar Gideon Lichfield April 2015 Atlantic Monthly The existence of a hidden field Bohm s implicate order of non physical consciousness occupying as yet undiscovered additional dimensions which are outside the visible reality Bohm s explicate order as defined by 3 D plus time has now been proven scientifically by the following collated data Recent repeated replication of John Bell s theory of non locality Studies of the Near Death experience and After death communications demonstrated in triple blind laboratory experiments testing evidential mediumship This hidden field implicate order of non physical consciousness also provides the matrix upon which the explicate order of observed reality is continually manifested Alan Hugenot Our challenge is to discover through careful science how we can interface with this matrix of consciousness Viewing psi phenomena as belonging to aspects of reality about which we as yet simply know very little is the only honest way for any scientist to proceed Healthy scientific skepticism must be open to new discoveries and so allow open examination of the scientific data developed by rigorous para normal research Honest open minded inquiry will bring both new

discoveries of truth and new laws of physics beyond the limits of the Newtonian paradigm Alan Hugenot **Bibliography of Sources on Yugoslavia** Rusko Matulić,1981 **Review of the Study Centre for Jugoslav Affairs** Study Centre for Jugoslav Affairs,1977 [UFOs and the Extraterrestrial Contact Movement: The extraterrestrial contact movement](#) George M.
