### **In Search of the Ninja**

Antony Cummins,2012-02-29 Lost in modern myth false history and general misinterpretation the Ninja have been misrepresented for many years More recently a desire for a more historical view of the ninja has become a popular theme in the history martial arts community and Antony Cummins is the primary driving force behind that movement In Search of the Ninja is based upon the Historical Ninjutsu Research Team's translations of the major ninja manuals and consists of genuinely new material Little historical research has been done on the Ninja of Japan Here for the first time the connection of the famous Hattori family warriors with the Ninja is explained The Samurai versus Ninja myth is dispelled The realities of Ninja skills are analysed How did a Ninja work underwater when mining castle walls How can a bird be used to set fire to the enemy's camp The book explores newly discovered connections to ancient Chinese manuals lost skills and the hidden Zen philosophy that the Ninja followed In Search of the Ninja is the first and only historical look at the shinobi of ancient Japan

*Ninja Skills* Antony Cummins,2018-03-13 The world's only illustrated guide to the real ninja teachings of historic Japan with original techniques presented in a highly accessible how to format The shadowy figure of the ninja expert commando secret agent maverick who operates outside social norms continues to exert fascination in the West yet much of what is presented as ninja fact today is distorted or wrong Drawing on the scrolls created by historical Japanese ninjas or shinobi as they were then known this book offers the real ninja teachings in 150 easy to follow illustrated lessons designed to draw contemporary students of ninja straight into the world of these skilled spy commandos The truth about the ninja is so much more complex and intriguing than the Hollywood clichés we know today We may think for example of a ninja as being always garbed in black and fighting with throwing stars but in fact a ninja had clothes in different colours to serve as disguises for different times of day and their arsenal of weaponry could include anything from poison poison gas pepper spray and fire creating tools to swords spears and knives but no throwing stars The 150 lessons in this book cover all the basics of ninja warcraft including clever ideas for infiltrating an enemy compound from wearing silent sandals to faking passes and passwords tactics for hiding and retreat in the racoon dog retreat a ninja will crouch low and halt allowing the pursuer to collide with him at speed whereupon the agent kills his enemy and ways of crossing marshes and water for example with special shoes made of boards or using a foldaway floating seat The description is made all the more vivid by step by step
