*Major League Baseball Organizations* Frank P. Jozsa Jr., 2016-10-07 This book analyzes and highlights the development and success of major league baseball teams in the National League and the American League focusing on each team's performance in seasons and postseasons and to what extent each succeeded as a business enterprise despite competition for market share from other types of entertainment. The book discusses historical and financial information about the 30 major league franchises. Each chapter contains two core themes: Team Performances and Franchise Business. The former highlights which and how teams won division and league championships and World Series while the latter lists and compares financial data including their revenue gate receipts and operating income and describes interesting business topics. Each chapter also provides an overview of when each franchise organized and why it joined MLB, a brief profile of its current majority owner or ownership group, records of teams' special coaches and players' attendances at home games and how their ballparks rank as a venue for fans. Baseball Business explains why particular teams located in large, mid-sized or small markets win more games and titles than others and when and how frequently that occurs. Furthermore, it provides ways to compare franchises' financial success individually by division and by league. By linking and comparing the historical performances of MLB teams to financial information about them as business organizations, this book offers a unique contribution to the literature on the sports industry.

**Transforming from Consumer to Producer in 90 Days** Darryl L. Wortham, 2011-08-10 FOREWORD  
The core concept is not just saving money but saving time and energy as well. These savings are multiplied together giving you more money to invest. To summarize, I created the equation  $ET \times M2 = INVEST$  in which saving Money, Energy and Time (ET) are multiplied to generate More Money (M2) to INVEST. This equation is fundamental to your success. You must be prepared to take action to start having enough money to accomplish your goals, to stop living paycheck to paycheck and to retire early. If you are on course to make the same income as last year or worse, facing declining take-home pay because of ever-increasing taxes, medical costs and declining economy, don't give up. Saving money, energy and time will generate more money to invest, creating real income and wealth. Transforming you from consumer to producer. You must expand yourself personally as well as enhance your inner and micro economics. Rather than growing a mega company's revenue or the financial fortitude of millionaires' pockets, you are going to grow your own individual savings account, retirement plan and children's college funds. This book is a guide to help you create a path and roadmap to a life of saving money, reducing debt, living efficiently and creating wealth by investing within a reasonable timeframe. Together we will examine four major building blocks that inspire and accelerate behavioral changes: 1. Why and how to change your behavior and lifestyle; 2. How to save money, energy and time; 3. How to invest your money, energy and time savings to improve your present situation and build for the future; 4. How to create and implement a transformation plan. Progressive ideas and hilarious, cheap strategies are also detailed. These are necessary to exceed your personal and financial goals. I want you to be thrilled about life saving.
