Multimodality in the Built Environment Louise J. Ravelli,Robert J. McMurtrie,2015-11-19 This book provides an extended exploration of the multimodal analysis of spatial three dimensional texts of the built environment culminating in a holistic approach termed Spatial Discourse Analysis SpDA Based on existing frameworks of multimodal analysis this book applies adapts and extends these frameworks to spatial texts The authors argue that choices in spatial design create meanings about what we perceive and how we can or should behave within spatial texts influence how we feel in and about those spaces and enable these texts to function as coherent wholes Importantly a spatial text once built is also a resource which is then used and an essential aspect of understanding these texts is to consider what users themselves contribute to the meaning potential of these texts The book takes the metafunctional approach familiar from Systemic Functional Linguistics SFL and foregrounds each metafunction in turn textual interpersonal experiential and logical in relation to the detailed analysis of a particular spatial text   Current Trends in EMI and Multimodality in Higher Education Vicent Beltrán-Palanques,Edgar Bernad-Mechó,2024-07-08 Looking at both English Medium Instruction EMI and multimodality in higher education this edited volume bridges the gap between the two contexts by offering various new insights into fundamentals in multilingual education EMI discourse and current teaching practices in internationalised contexts Current demands in communication especially in higher education contexts require examining EMI from a multimodal perspective with the aim of giving explicit attention to modern discourse practices The contributors reflect on the principles guiding EMI and multimodality and their application in higher education using both practical examples and data driven evidences They discuss EMI multimodal discourse from an empirical perspective to unveil communicative practices in internationalised higher education contexts and exemplify classroom applications and ESP and EAP pedagogical practices that promote multimodal competence in higher education The contributors provide solid theoretical foundations key principles research evidence and pedagogical implications that inform current methodologies and practices for EMI ESP and EAP as well as multimodality in higher education This volume on EMI and multimodality in higher education will have broad appeal for researchers worldwide from various fields of expertise within education and applied linguistics   **Handbook of Political Discourse** Piotr Cap,2023-02-14 Synthesising diverse research avenues for politics discourse and political discourse this cutting edge Handbook examines the formative traditions current theoretical and methodological landscape and genres and domains over which political discourse extends   **Beyond the Visual** Frank Serafini,2022 Beyond the Visual is a survey of contemporary approaches to researching a wide range of visual and multimodal phenomena Building on his earlier book Reading the Visual Serafini shares resources for conducting multimodal research across the social sciences Beginning with a comprehensive overview of the theoretical foundations that support the analytical frameworks the text is organized into two parts texts and objects events and spaces with corresponding analytical approaches Examples and outlines are provided to help novice and

experienced researchers conduct their own studies Vignettes by some of the most renowned scholars in the field of multimodality research take the reader behind the scenes of various projects to experience the thoughts and decisions that go into conceptualizing and applying the analytical frameworks presented in the book This resource will enable both students and experienced scholars to acquire new research skills and designs resulting in more rigorous high quality research Book Features Assists researchers and educators to make better connections among theoretical orientations analytical frameworks and research designs Showcases 16 models for conducting research on visual and multimodal phenomena across a variety of social virtual and physical contexts Provides examples of how eminent researchers conceive design initiate and conduct their studies Explores the research methods cited in the author s previous book Reading the Visual   **Organizational Semiotics** Louise Ravelli,Theo van Leeuwen,Markus A. Höllerer,Dennis Jancsary,2023-05-17 This edited volume brings together two largely separate fields organization studies and multimodal social semiotics to develop an integrated research agenda for the novel interdisciplinary field of organizational semiotics Organizations whether for profit non profit or governmental dominate much of everyday life and multimodal communication is not only an output of organizations but is also constitutive of them This volume argues in particular for the importance of organization studies for social semioticians not just as a site of application but also as a critical contemporary context that requires novel and expanded methods of analysis and critique and new practices of partnership The volume addresses a range of institutions and sectors from civil to retail to medical from corporations to universities and reveals how a deep engagement with their meaning making practices produces insights not just about communication but also about the broader contemporary cultural context in which organizations play such a significant role Fundamentally it reveals that the rich analytical and theoretical resources of multimodal perspectives on organizations studies can and should make a fundamental contribution to our understanding of organizations in social life This volume is relevant to social semioticians and organizational researchers as well as to practitioners and decision makers in organizations   Interpersonal Meaning in Multimodal English Textbooks Yumin Chen,2022-03-10 Exploring multimodality in English language teaching textbooks this book focusses on how language and image are co deployed within these resources in order to create and convey interpersonal meaning Presenting cutting edge research in appraisal studies and multimodal discourse analysis Yumin Chen uses systemic functional linguistics and social semiotics to investigate how different voices are introduced and aligned inter modally in textbooks extending the appraisal systems of engagement and graduation across language and image The book also demonstrates how linguistic and visual semiotic resources co instantiate attitude paying special attention to the attitudinal dimension of curriculum goals for school students of different ages Furthermore it examines how different kinds of coding orientation are deployed in various educational contexts and different constituent genres Demonstrating how the linguistic and semiotic theories can be adapted to analyze multimodal texts across language and image Interpersonal Meaning in Multimodal English Textbooks offers new perspectives on how to
