for Your Career presents information on choosing a career in law enforcement. ***Murder by Numbers*** James Moore, 2018-01-31 What is the connection between the number 13 and Jack the Ripper? Why was the number 18 crucial in catching Acid Bath murderer John George Haigh? And what is so puzzling about the number 340 in the chilling case of the Zodiac killer? The answers to all these questions and many more are revealed in a unique number crunching history of the ultimate crime. James Moore's *Murder by Numbers* tells the story of murder through the centuries in an entirely new way through the key digits involved. Each entry starts with a number and leads into a different aspect of murder be it a fascinating angle to a case or revealing insights into murder methods, punishments and of course the chilling figures behind the most notorious killers from our past. From the grizzly death toll of the world's worst serial killer to your own odds of being murdered this guide will appeal to the connoisseur of true crime and the casual reader alike.

***Book Review Index Cumulation*** Dana Ferguson, 2005-09 Book Review Index provides quick access to reviews of books, periodicals, books on tape and electronic media representing a wide range of popular academic and professional interests. The up to date coverage, wide scope and inclusion of citations for both newly published and older materials make Book Review Index an exceptionally useful reference tool. More than 600 publications are indexed including journals and national general interest publications and newspapers. Book Review Index is available in a three issue subscription covering the current year or as an annual cumulation covering the past year.

***Forensic Biology*** Jennifer MacKay, 2009-06-12 Forensic biologists play a leading role in many investigations. They collect and examine bodily fluids, hair and bones in order to identify suspects. This book details the job of a forensic biologist and examines the tools and techniques they use to collect and analyze biological evidence. The tiniest bit of evidence can unravel the most puzzling of crimes. Sidebars are included which offer step by step explanations of scientific and legal processes.
