and in 2006 they acquired the company. The software was abandoned and turned into what everyone knows today as Google Docs. It disrupted the industry, namely Microsoft's industry. Today Google has a whole suite of productivity apps from documents to spreadsheets; you can do just about anything from the cloud. Microsoft and Apple have each made big attempts to create cloud-based environments of their own for office productivity, but Google pioneered the idea, and its collaborative online environment makes it hard to beat. It's become so feature-rich that many businesses are finding it to be the preferred way to conduct business. If you are thinking about making the switch to Google or have already made the switch but want to make sure you are using it correctly, then this guide will walk you through it.
