She built a global business based on her story. There was just one problem she never had cancer in the first place. In 2015 journalists uncovered the truth behind Gibson's lies. This hero of the wellness world with over 200 000 followers international book deals and a best selling mobile app was a fraud. She had lied about having cancer to her family and friends to her business partners and publishers and to the hundreds of thousands of people including genuine cancer survivors who were inspired by her Instagram posts. Written by the two journalists who uncovered the details of Gibson's deception *The Woman Who Fooled the World* tracks the 23 year old's rise to fame and fall from grace. Told through interviews with the people who know her best it explores the lure of alternative cancer treatments exposes the darkness at the heart of the wellness and clean eating movements and reveals just how easy it is to manipulate people on social media. With the idea of clean eating now routinely debunked by dietary experts and growing scepticism about the authenticity of what we read online *The Woman Who Fooled the World* is a timely and important book that answers not just how but why Gibson was able to fool so many
