Online Managing Extreme Climate Through Insurance:

Managing Extreme Climate Change Risks through Insurance W. J. Wouter Botzen, 2013-03-28 In recent years the damage caused by natural disasters has increased worldwide this trend will only continue with the impact of climate change Despite this the role for the most common mechanism for managing risk insurance has received little attention This book considers the contribution that insurance arrangements can make to society's management of the risks of natural hazards in a changing climate It also looks at the potential impacts of climate change on the insurance sector and insurers responses to climate change The author combines theory with evidence from the rich experiences of the Netherlands together with examples from around the world He recognises the role of the individual in preparing for disasters as well as the difficulties individuals have in understanding and dealing with infrequent risks Written in plain language this book will appeal to researchers and policy makers alike
