Fernanda Nicola, Bill Davies

Michael Lamsa:

Managers in European Law Natalie Videbæk Munkholm, Vicenzo Pietrogiovanni, Karsten Engsig Sørensen, 2024-02-08
Business organisations depend on having one or more persons who can legitimately make strategic business decisions. But what are the legal entitlements of such key professionals? This is the first book with contributions from experts across Europe to take a broad comparative look at how the delimitation of rights and duties of executive and non executive managers is done under different areas of EU law and across different jurisdictions namely EU and national law. Aspects of the executive role covered include the following: extensive treatment of definitions and methodologies to ascertain the status of managers as workers in Europe; comprehensive interdisciplinary and comparative analysis of cross cutting issues affecting managers in Europe including complexities arising from national variations in governance structures and roles and functions of managers; comprehensive analysis of cases before the European courts with full awareness of applicable rules; distinction between registered front directors and those who act as de facto managers; how employees and to some degree other stakeholders may be involved in management trends in current EU law that increase the need to protect managers; trends that increase the need to hold managers liable; right to inter alia information and consultation; occupational health and safety; non discrimination and free movement; and recognition that managers may not necessarily be powerful professionals with strength vis vis the company as employer. According to EU statistics in 2019 nearly 9.4 million persons held a managerial position across the EU's Member States meaning that many managers currently can no longer inherently be considered unworthy of employment protection. The legal status of these individuals thus cannot be sidestepped. This very important volume accordingly will be of value to practitioners, policymakers and academics in employment and labour law.

Bacillus Molecular Genetics and Biotechnology Applications A. T. Ganesan, James A. Hoch, 1986
Bacillus Molecular Genetics and Biotechnology Applications contains the proceedings of the Third International Conference on the Genetics and Biotechnology of *Bacilli* held at Stanford University in Stanford, California on July 15-17, 1985. Contributors discuss the progress that has been made concerning the molecular genetics and biotechnology of *Bacillus* and cover topics related to transposons and plasmids, secretion, gene cloning and gene expression. This volume is organized into five sections encompassing 39 chapters and begins with an overview of the origin and the state of molecular gene

[EU Law Stories](#) Fernanda Nicola, Bill Davies, 2017-05-29
Through an interdisciplinary analysis of the rulings of the Court of Justice of the European Union this book offers thick descriptions, contextual histories and critical narratives engaging with leading or minor personalities involved behind the scenes of each case. The contributions depart from the notion that EU law and its history should be narrated in a linear and incremental way to show instead that law evolves in a contingent and not

determinate manner The book shows that the effects of judge made law remain relatively indeterminate and each case can be retold through different contextual narratives and shows the commitment of the European legal elites to the experience of legal reasoning The idea to cluster the stories around prominent cases is not to be fully comprehensive but to re focus the scholarship and teaching of EU law by moving beyond the black letter and unravel the lawyering techniques to achieve policy results
