# Microsoft Excel 2007 Manual

**Mike Jess**

## **Microsoft Excel 2007 Manual:**

[Excel 2007](#) Matthew MacDonald,2007 Publisher description [Excel 2007](#) Helen Dixon,2007-05-29 Many experienced users may initially find Excel 2007 rather disorientating But Excel 2007 Beyond the Manual will introduce those who are already familiar with Excel basics to more advanced features like consolidation what if analysis PivotTables sorting and filtering and some commonly used functions You ll learn how to maximize your efficiency at producing professional looking spreadsheets and charts and become competent at analyzing data using a variety of tools The book includes practical examples to illustrate advanced features It also covers new features of Excel 2007 along with ways to access old features You ll even gain timesaving tips and shortcuts

**Excel 2007 for Starters** Matthew MacDonald,2007 A comprehensive beginner s guide to using Microsoft Excel 2007 that covers basic functions and worksheets adding information and moving data formatting cells viewing and printing basic formulas tables charts and other topics [Microsoft Excel 2007](#)

Inmark-Elearning,2011 [Excel 2007](#) Matthew MacDonald,2006 Microsoft Excel continues to grow in power sophistication and capability but one thing that has changed very little since the early 90s is its user interface The once simple toolbar has been packed with so many features over the years that few users know where to find them all Microsoft has addressed this problem in Excel 2007 by radically redesigning the user interface with a tabbed toolbar that makes every feature easy to locate and use Unfortunately Microsoft s documentation is as scant as ever so even if users can find advanced features they probably won t know what to do with them Excel 2007 The Missing Manual covers the entire gamut of how to build spreadsheets add and format information print reports create charts and graphics and use basic formulas and functions Like its siblings in the Missing Manual series this book crackles with a fine sense of humor and refreshing objectivity about its subject guiding readers through the new Excel with clear explanations step by step instructions lots of illustrations and friendly time saving advice It s a perfect primer for small businesses with no techie to turn to as well as those who want to organize household and office information

**Excel 2007 For Starters: The Missing Manual** Matthew Macdonald,2007-01-01 The new Excel is radically different from previous versions Over the years Excel has grown in power sophistication and capability but its once simple toolbar has been packed with so many features that not even the pros could find them all For Excel 2007 Microsoft redesigned the user interface completely adding a tabbed toolbar that makes every feature easy to locate
