The Idea of a Social Studies Education James A. Duplass, 2017-09-22 Offering a fresh take on the purpose of social studies today James A Duplass positions philosophical counseling as a way for teachers to engage students in thinking deeply about what it means to be a citizen in a democratic society The Idea of a Social Studies Education takes a uniquely humanistic approach to the idea of a social studies education to show how teachers can act as philosophical counselors in preparing students for active civic engagement Duplass reminds the reader of the needs of students in modern society who seek to develop an identity worth living and the role social studies can play in students achieving that process By focusing on the cultivation of students autonomy authenticity efficacy and agency Duplass approach avoids political biases and instead encourages critical thinking to decipher what a democratic ideology truly is *Catalog* University of Colorado Boulder, 2009

Teaching Elementary Social Studies James A. DuPlass, 2008. Written for the elementary social studies methods course, this interactive program combines features of a textbook and a workbook with thorough integration between the print text and a dynamic web site. Increasingly, majors in elementary education, if not the population at large, are more attuned to reading interactive material with relatively brief narrative, bulleted items, text boxes, and targeted messages like web pages rather than traditional denser text. To accommodate these preferences, the layout of the print text features a larger than usual font, an 8 x 11 trim size, and spiral binding, and the content includes an abundance of bulleted lists, shaded text boxes, and

contemporary graphics The program s interactive approach and flexibility allow the professor to model the kinds of teaching principles and practices that students will want to use in their own elementary school classrooms These principles and practices are integrated throughout the text and include a focus on active learning strategies application of constructivist principles focus on Big Ideas and thinking skills use of the Internet and modeling of Best Practices and Performance based assessments based on INTASC and NCATE standard Thus the book will serve as a springboard for classroom activities web site explorations and or instructor led activities Indiana's P-16 Plan for Improving Student Achievement ,2003 **The Administration and Supervision of Reading Programs** Shelley B.
