The goal of this research was to find out which automated enforcement programs have been successful and what contributed
to their success as well as which programs have been unsuccessful and to draw lessons from their experiences This was
accomplished through a comprehensive assessment of automated speed and red light running enforcement activity in the
United States and Canada which led to the development of guidelines to assist agencies in implementing and operating
successful automated enforcement programs Over 350 jurisdictions with current or past automated enforcement programs
were contacted by survey and phone as part of the assessment In addition to the survey an extensive literature review was
