*EDUCATION 6.0 KHRITISH SWARGIARY,2026-01-01* As the author of Education 6.0 Envisioning the Symbiotic Future of Learning and Innovation I am profoundly humbled and inspired to present this work at a pivotal moment in human history. We stand on the threshold of an era defined by unprecedented technological convergence where artificial intelligence, quantum computing, bio digital interfaces and regenerative systems are reshaping not only industries but the very essence of how we learn, create and coexist with intelligent machines. Education 6.0 as envisioned in these pages represents a bold, forward looking paradigm that extends beyond the human centric resilience of Education 5.0 and Industry 5.0. It embraces a symbiotic future in which humans and advanced technologies co-evolve ethically, sustainably and equitably to address grand challenges like climate crises, skill obsolescence and global inequities. This book emerges from my deep passion for educational transformation informed by years of research into emerging technologies, pedagogy and policy. Drawing on historical trajectories from ancient gurukuls and hierarchical rote systems to the digital integrations of Education 3.0 and 4.0, I propose Education 6.0 as a holistic framework aligned with the nascent visions of Industry 6.0. Central to this is the original LIKEMS framework: Leadership, Innovation, Knowledge, Skills, Industry, Manufacturing, Maker Centered Practices, Entrepreneurship and Sustainability, designed to cultivate sovereign learners who lead ethical innovation, harness symbiotic intelligence and steward planetary resources. Written amid rapid advancements as of late 2025, this volume synthesizes empirical evidence, real world implementations and speculative yet rational projections to guide educators, policymakers, researchers and innovators. My hope is that it sparks collaborative action toward learning ecosystems where technology amplifies human potential without diminishing agency, empathy or well-being. Education 6.0 is not merely an adaptation to change; it is a call to co-create a harmonious, innovative world for generations to come.

**KHRITISH SWARGIARY AKA KS Luminar Assam India Jan 2026 A New Approach to Reading Videogames as Story** Thomas Rowland, 2026-01-27 This book introduces a new methodology for understanding videogames with particular attention to three types of videogames: toy games, storybook games, and ludonarratives. This methodology pulls from phenomenological and deconstructionist roots informed by medieval studies and the history of reading to emphasize how important playing stories can be as a form of narrative. This book explores the idea of storyplaying in connection with new ideas on intromersive movement game mechanics and sacred play to develop a typology of videogames that will enable critics, educators, and theorists to situate videogames within a broad continuum of literary history. Building on this foundation, this book continues by exploring additional facets of this methodology by exploring the relationship between videogames and film criticism, the emerging art world of game-mediated photography, the various economies constructed around videogames, the potential of games to serve as third places, and some suggestions for videogames in the classroom. These ideas are contextualized by the author's argument that videogames serve a purpose akin to the original function of medieval cathedrals as intentional virtual spaces.

with dedicated and important meditation which given today s decadent cultural and political climate underscores the urgency of recognizing videogames as being vital to our scholarly and educational enterprises **Marketing in the Metaverse** Abu Bashir,Brighton Nyagadza,Mohammad Wasiq,2026-01-01 This book offers a comprehensive exploration of marketing in the metaverse a rapidly evolving digital frontier reshaping human interaction and economic systems It provides an evidence based analysis of how immersive virtual spaces are transforming brand consumer engagement with a special focus on emerging markets Readers will discover how technologies like virtual reality artificial intelligence and blockchain are creating new paradigms for marketing strategies The chapters delve into critical topics such as omnichannel convergence value co creation and trust in virtual transactions illustrated through sectoral case studies from banking to fashion The book also addresses ethical considerations such as privacy and digital well being advocating for a socially responsible approach to metaverse marketing This volume is essential for marketers business leaders and policymakers seeking to understand and leverage the metaverse s potential It offers actionable insights for market entry and customer engagement while also serving as a valuable resource for students and educators interested in digital transformation By bridging theoretical exploration with empirical insights this book equips readers to navigate the future of marketing with confidence and responsibility
