standards for the licensing and registration of mortgage loan originators. This allows easy access to a Loan Officer and Mortgage Broker's credentials and allows the public to know what kind of mortgage history these providers have. This study guide will prove to be your ally in passing the exam because its structure has proven simple and effective for many of our students. So even if this isn't your first attempt, you too can get your license. Let's take a look at how this manual was structured. We've divided the information into lessons in a practical way; you can skip to any class and explore the areas where you feel you need the most help or start at the beginning and work through each lesson in order. Each lesson begins with a theory part when a particular law or regulation is explained; at the end you will find a paragraph called a close look at, in which the main points of the law or regulation are summarized. In this way you will understand and remember the concepts. The Practice section is our masterpiece. You will highlight the critical content and test your understanding of the content using the 27 quizzes and exercises in this manual so you can simulate your exam repeatedly and assess how deeply you still need to study a content area. After the tests you will find the answers and the explanation of WHY it is the correct answer. I decided to add those explanations because if you didn't know the answer you don't have to research more; you could learn from your mistakes without losing time. On the other hand, if you do it right, the explanation will be a good opportunity to repeat the concepts you will find in your exam. There are several important laws and regulations that you must master. Here is a quick look at a few of them: Federal law and regulations, Ethics, Fraud, Lending standards related to nontraditional mortgage products, How to maintain your career profitable during the pandemic situation. Yes, this book is designed to give you the information you need to pass your NMLS licensing exam and successfully enter the mortgage profession, whether it be in sales, lending, processing, or underwriting.
