**Nobles, Knights and Men-at-Arms in the Middle Ages** Maurice Keen, 1996-01-01 The literature of chivalry and of courtly love has left an indelible impression on western ideas What is less clear is how far the contemporary warrior aristocracy took this literature to heart and how far its ideals had influence in practice especially in war These are questions that Maurice Keen is uniquely qualified to answer This book is a collection of Maurice Keen's articles and deals with both the ideas of chivalry and the reality of warfare He discusses brotherhood in arms courtly love crusades heraldry knighthood the law of arms tournaments and the nature of nobility as well as describing the actual brutality of medieval warfare and the lure of plunder While the standards set by chivalric codes undoubtedly had a real if intangible influence on the behaviour of contemporaries chivalry's idealisation of the knight errant also enhanced the attraction of war endorsing its horrors with a veneer of acceptability

**The Hundred Years War** C. T. Allmand, 1988-02-04 A comparative study of how the societies of late medieval England and France reacted to the long period of conflict between them from political military social and economic perspectives

*The Hundred Years War* Christopher Allmand, 1988-02-04 This is a comparative study of how the societies of late medieval England and France reacted to the long period of conflict between them commonly known as the Hundred Years War Beginning with an analysis of contemporary views regarding the war Two chapters follow which describe the military aim of the protagonists military and naval organisation recruitment and the raising of taxes The remainder of the book describes and analyses some of the main social and economic effects of war upon society the growth of a sense of national consciousness in time of conflict and the social criticism which came from those who reacted to changes and development brought about by war Although intended primarily as a textbook for students Dr Allmand's study is much more than that It makes an important general contribution to the history of war in medieval times and opens up new and original perspectives on a familiar topic

*Soldiers, Nobles and Gentlemen* Peter R. Coss, Christopher Tyerman, 2009 New essays on chivalry warfare and treason and politics in the middle ages Chivalric culture soldiers and soldiering and treason politics and the court form the main themes of this volume as is appropriate in a book which honours the distinguished medievalist Maurice Keen The essays all by eminent scholars in the field cover such topics as nobility and mobility in Anglo

Saxon society chivalry and courtliness the crusade and chivalric ideas chivalry and art devotional literature piety and chivalry military strategy the victualling of castles Bertrand du Guesclin soldiers wives military communities in fourteenth century England military and administrative service among the fifteenth century gentry treason disinvestiture and the disgracing of arms and treason in Lancastrian Normandy Overall they reflect the range of the honoree's interests the depth of his scholarship the international flavour of his work and his unique contribution to historical scholarship The volume includes appreciations from a former pupil and colleagues and ends with a bibliography of his work CONTRIBUTORS LINNIE RAWLINSON MARTIN CONWAY SIMON SKINNER JAMES CAMPBELL DAVID CROUCH CHRISTOPHER TYERMAN CRAIG TAYLOR ADRIAN AILES NIGEL SAUL JEREMY CATTO ROWENA ARCHER CHRISTOPHER ALLMAND MICHAEL PRESTWICH MICHAEL JONES ANNE CURRY ANDREW AYTON SIMON PAYLING PETER COSS MATTHEW STRICKLAND JULIET BARKER MALCOLM VALE GERALD HARRISS MARY KEEN      **Homoeroticism and Chivalry** R.

Zeikowitz, 2016-04-30 Zeikowitz explores both affirming and denigrating discourses of male same sex desire in diverse fourteenth century chivalric texts and describes the sociopolitical forces motivating those discourses He attempts to dethrone traditional heteronormative views by drawing attention to culturally normative queer desire Zeikowitz articulates possible homoeroticized spectatorial interactions between male readers and imagined or actual model knights dramatized accounts of same sex unions and mutually stimulating or competing forces of homosocial and heterosexual desire in chivalric texts such as Charny's Book of Chivalry Sir Gawain and the Green Knight and Troilus and Criseyde He also examines how intimate male bonds are rendered sodomitically inflected dangerous attachments in chronicle narratives of the reigns of Edward II and Richard II      **Chivalry and Violence in Medieval Europe** Richard W. Valente, 2003 Medieval Englishmen were treacherous rebellious and killed their kings as their French contemporaries repeatedly noted In the thirteenth through fifteenth centuries ten kings faced serious rebellion in which eight were captured deposed and or murdered One other king escaped open revolt but encountered vigorous resistance In this book Professor Valente argues that the crises of the thirteenth and fourteenth centuries were crucibles for change and their examination helps us to understand medieval political culture in general and key developments in later medieval England in particular The Theory and Practice of Revolt takes a comparative look at these crises seeking to understand medieval ideas of proper kingship and government the role of political violence and the changing nature of reform initiatives and the rebellions to

which they led It argues that rebellion was an accepted and to a certain extent legitimate means to restore good kingship throughout the period but that over time it became increasingly divorced from reform aims which were satisfied by other means and transformed by growing lordly dominance arrogance and selfishness Eventually the tradition of legitimate revolt disappeared to be replaced by both parliament and dynastic civil war Thus on the one hand development of parliament itself an outgrowth of political crises reduced the need for and legitimacy of crisis reform On the other hand when crises did arise the idea and practice of the community of the realm so vibrant in the thirteenth century broke down under the pressures of new political and socio economic realities By exploring violence and ideas of government over a longer period than is normally the case this work attempts to understand medieval conceptions on their own terms rather than with regard to modern assumptions and to use comparison as a means of explaining events ideas and developments *The World of the Stonors* Elizabeth Noble,2009 First full length survey of the Stonors an important gentry family during the middle ages exploring the wide connections they fostered The Stonor letters and papers are second in quantity only to the Paston letters Nevertheless while studies of the parvenu Pastons of Norfolk abound no historian has used the Stonor archive to write about this significantly longer established gentry family from Oxfordshire despite the fact that their letters and papers have been available in print since the early twentieth century and have been recently re issued This present study helps to rectify that oversight It argues that lineage land and lordship were crucial elements in the Stonors world both materially and culturally providing them with status and identity They asserted their gentle lineage using a range of symbolic and other means but did not neglect the more mundane management of their scattered lands Ties of lordship with the influential helped them to retain these lands and it is clear that the Stonors worked hard to foster relationships with kin and neighbours indeed their letters and papers allow us a far more extensive yet intimate view of all these social ties extending over several counties than is usually possible for the gentry Dr ELIZABETH NOBLE teaches in the School of the Humanities University of New England New South Wales **Military and Religious Life in the Middle Ages and at the period of the Renaissance.**

*Rule, Redemption and Representations in Late Medieval England and France* Linda Clark,2008 Important aspects of fifteenth century England and Europe assessed in this new collection A variety of new perspectives and fresh insights into people and society in fifteenth century England and France are gathered together here We learn from contemporary accounts of the battle of Anthon how regional politics in the Dauphin were enmeshed in the broader conflict over the French throne subtle inferences about East Anglian politics in the fifteenth century are derived not only from a detailed study of stained glass but also from a close examination of Sir John Fastolf s papers the motivations of members of guilds in founding almshouses in their towns and how such establishments functioned are presented for our deeper understanding relations

between Humphrey duke of Gloucester and the citizens of London at crucial stages of Henry VI's reign are explored anew the celebration of the accession of Edward IV by the artistic endeavours of a clerk of the staple of Calais gives our study of the period a new visual dimension and a drama perhaps performed in the household of Cardinal Morton throws a new perspective on contemporary attitudes towards the nobility and Henry VII's new men Contributors KATHLEEN DALY DAVID KING RUTH LEXTON JONATHAN MACKMAN CAROLE RAWCLIFFE COLIN RICHMOND LUCY RHYMER ANNE F SUTTON
