Zakir Abdul Hamid,Mari Suoheimo,2023-07-20 The productization of emerging technologies related to the Fourth Industrial
Revolution FIR is now getting more attention across different industries Compared to the previous industrial transformations
that the world has seen which relied on mechanical innovations the ongoing FIR is seeing software and data driven products
as the foundation Apart from that topics such as circular and sustainable economy as well as climate change are also
disrupting the industrial ecosystem For a viable and successful productization of emerging technologies collaborations
between interdisciplinary stakeholders are a necessity One of the elements that has been identified to facilitate this
collaboration is service design This book aimed to provide comprehensive service design discussions for practitioners in
different fields and sectors The aim is to bridge the knowledge gap between experts in academia business and product
development among many others to provide a unified understanding of the importance of service design for the
productization of emerging technologies The book consists of an overview of emerging technologies product development
and service design as well as perspectives from different sectors of the industry The book is expected to benefit multi
disciplinary researchers practitioners and general audiences with interests in Service Design for Emerging Technologies
