*Mother Warriors* Jenny McCarthy, 2008-09-23 Stories of hope and recovery from a nation of parents of autistic children by the high profile bestselling author of *Louder Than Words* When Jenny McCarthy published *Louder Than Words* the story of her successful efforts to save her son Evan from autism the response was tremendous It hit 3 on the New York Times bestseller list and Jenny and Evan were featured on the covers of several magazines including *People* But what she hadn't anticipated was the overwhelming response from other parents of autistic children who sought her out to share their stories No two autistic children heal in exactly the same way And in her new book Jenny expands her message to share recovery stories from parents across the country *Mother Warriors* shows how each parent fought to find her own child's perfect remedy of interventions and teaches parents how to navigate safely through the many autism therapies Along the way Jenny shares her own journey as an autism advocate and mother as well as the progress of her son Evan Emotional and genuinely practical *Mother Warriors* will inspire a generation of parents with hope *How Parents Deal with the Education of Their Child on the Autism Spectrum* Jasmine McDonald, 2014-11-26 Powerful moral social justice and political arguments have convinced parents that it is their democratic right to place their children on the autism spectrum into mainstream educational environments so that their children may eventually take up their rightful place in a mainstream adult life But what is really happening for some of these parents when they try to gain and maintain an appropriate education for their child in these mainstream contexts and beyond What is the educational experience like for these families who are in the midst of this generational change from historical exclusion to inclusion Current research indicates that while islands of excellent mainstream inclusive practice do exist the educational experience for many students on the autism spectrum can often be one of hostility inconsistency and unreliability Without appropriate understanding of best practice educational methods these students can present an inordinate educational challenge to both parents and educators alike How do parents deal with such complex educational profiles How do they continue to maximize their children's development over time What are the barriers that hinder their quest What are the facilitators that help their quest To answer these questions this book provides an in depth recent examination of the real life journeys of families who attempted to gain an appropriate education for their children on the autism spectrum including the areas of diagnosis early intervention mainstream schooling home education segregated schooling and transition to work and further study Jasmine McDonald BA DipEd MSpecEd Hons PhD is affiliated with the Telethon Kids Institute University of Western Australia Perth Australia Her current work includes trialling a peer to peer mentoring program for tertiary students on the autism spectrum This program runs at Curtin University in Western Australia and will be replicated and evaluated at the University of Western Australia The results will eventually be shared through the Australian Government Autism Cooperative Research Centre CRC website <http://www.autismcrc.com.au>

**Mother Trouble** Miranda J. Brady, 2024-10-01 *Mother Trouble* traces white maternal angst in popular culture across a

span of more than fifty years from the iconic Rosemary's Baby to anti vaxx mom memes and HGTV shows The book narrows in on popular media to think about white maternal angst as a manifestation of feminism's unrealized possibilities and continued omissions since the second wave It interrogates intersecting systems of power which make mothers and their children the most impoverished people in the world and urges a greater appreciation in academic and popular thinking of the work that mothers do The book calls for an analytical expansion beyond gender to better address the erasure of reproductive labour and especially that performed by migrants and people of colour It illustrates the continued marginalization of racialized mothers and the disproportionate amount of labour performed by all mothers in a society where their work is devalued Ultimately Mother Trouble reveals how the unease around white motherhood in the media has become a proxy for the troubles faced by all mothers

**The Big Autism Cover-Up** Anne Dachel, 2014-11-18 An unflinching look at the truth behind the media's

lies about autism Autism now affects 2 percent of US children A once rare disorder is now so common that everyone knows someone with an affected child Yet neither mainstream doctors nor government officials can tell the American public what is behind the staggering rise in diagnoses The Big Autism Cover Up explores how news outlets downplay the impact of autism while backing the official denial of any link between the disorder and vaccines Despite never honestly and thoroughly investigating the link mainstream news sources continue to challenge those who question the safety of vaccines and the mounting evidence that an unchecked unsafe vaccination schedule is behind the exponential increase in autism Anne Dachel has spent the last ten years monitoring how the press covers autism She's seen the media promote the unrelenting message from health officials that autism hasn't really increased but rather that it is simply a matter of better diagnosing of a disorder that's always been around Meanwhile autism remains a perpetual mystery and scientists continue to guess at the genetic and environmental triggers Officially there is no known cause or cure for autism There's nothing a new mother can do to prevent a baby that was born healthy and is developing normally from regressing into autism by the age of two Despite this officials rarely express concern and adamantly refuse to call autism a crisis The Big Autism Cover Up exposes this controversy in searing detail
