lively anecdotal account features every facet of Nixon's controversial administration just in time for the 25th anniversary of his history making resignation from the presidency 23 photos      **The Age of Impeachment** David E. Kyvig, 2008 A Bancroft Prize winning historian chronicles the modern history of impeachment and the shift in American politics and constitutional culture revealed by its evolving interpretation and use      Reinventing Richard Nixon Daniel E. Frick, 2008 Examining Nixon's autobiographies and political memorabilia Frick offers far reaching perceptions not only of the man but of Nixon's version of himself contrasted with those who would interpret him differently He cites reinventions of Nixon from the late 1980s particularly the museum at the Richard Nixon Library and Birthplace to demonstrate the resilience of certain national mythic narratives in the face of liberal critiques And he recounts how celebrants at Nixon's state funeral at which Bob Dole's eulogy depicted a God fearing American hero attempted to bury the sources of our divisions over him rendering in some minds the judgment of redeemed statesman to erase his status as disgraced president With dozens of illustrations Nixon posing with Elvis the National Archives most requested photo Nixonian cultural artifacts classic editorial cartoons no other book collects in one place such varied images of Nixon from so many diverse media These reinforce Frick's probing analysis to help us understand why we disagree about Nixon and why it matters how we resolve our disagreements BOOK JACKET      **Family of Freedom** Kenneth T. Walsh, 2015-10-23 Barack Obama is the first African American President but the history of African Americans in the White House long predates him The building was built by slaves and African Americans have worked in it ever since from servants to advisors In charting the history of African Americans in the White House Kenneth T Walsh illuminates the trajectory of racial progress in the US He looks at Abraham Lincoln and his black seamstress and valet debates between President Johnson and Martin Luther King over civil rights and the role of black staff members under Nixon and Reagan Family of Freedom gives a unique view of US history as seen through the experiences of African Americans in the White House      **The Reagan Presidency and the Politics of Race** Nicholas Laham, 1998-10-15 Argues that Reagan's civil rights policy was determined by legitimate philosophical considerations rather than crass political motivations

*Richard Nixon and the Politics of Civil Rights, 1969-1974* William Engle, 2002      America in the Seventies Beth L. Bailey, 2004 The seventies witnessed economic decline in America coupled with a series of foreign policy failures events that created an air of unease and uncertainty This volume examines the ways in which Americans responded to a changing world and sought to redefine themselves      *Defining Americans* Mary E. Stuckey, 2004 Ranging broadly from Andrew Jackson to Bill Clinton and George W Bush Stuckey demonstrates how presidents accomplish the dual enactment of inclusion and exclusion through their rhetorical and political choices Our early leaders were preoccupied with balancing the growing nation later presidents were concerned with the nature and definitions of citizenship By examining the political speeches of presidents exemplifying distinctly different circumstances she presents a series of snapshots which when taken together reveal both the continuity and the changes in our national self understanding      *American Politics and the African American*

*Quest for Universal Freedom* Hanes Walton, Robert C. Smith, 2015-10-16 This dynamic and comprehensive text from two nationally renowned scholars continues to demonstrate the profound influence African Americans have had and continue to have on American politics Through the use of two interrelated themes the idea of universal freedom and the concept of minority majority coalitions the text demonstrates how the presence of Africans in the United States affected the founding of the Republic and its political institutions and processes The authors show that through the quest for their own freedom in the United States African Americans have universalized and expanded the freedoms of all Americans

**Richard Nixon and the Rise of Affirmative Action** Kevin Yuill, 2006-06-29 Richard Nixon is hardly remembered for his civil rights policies but there is no denying that more than any other president he is responsible for affirmative action Noting Nixon's hostility towards busing his political allegiances with segregationists and the hostility of leading civil rights figures at the time historians and political scientists have avoided explaining why the origins of modern affirmative action lie in the Nixon era In this enlightening and original new work Kevin Yuill combines extensive archival research with a careful analysis of the intellectual climate of the era to examine not only the conditions that made Nixon's policy decisions possible in the 1970s but also what motivated Nixon to act in the way that he did He argues that in order to fully understand why Nixon embraced affirmative action one must fully take into account the shifting context of American liberalism in the 1970s In particular Yuill contends that although government enforced affirmative action did not fit into the postwar growth oriented liberalism it emerged as an important regulatory policy blueprint in an era increasingly characterized by diminished horizons for social policy Nixon's efforts in moving the focus of U S race relations from reform to indemnifying damages Yuill argues at least equals his contribution to the origins of affirmative action through policy innovations Controversial and far reaching *Richard Nixon and the Rise of Affirmative Action* brings fresh research and a much needed reinterpretation of a crucial yet still enigmatic period president and policy

*Getting Beyond Race* Richard Payne, 1998-03-27 In *Getting Beyond Race* Richard Payne takes the practical approach that race relations are ultimately about ordinary people interacting with each other Payne argues that confrontation blaming and dwelling on failure in race relations are not as productive as adopting a positive view and looking at individual success stories Drawing from his own experience of having lived with different racial groups and hundreds of conversations with Americans from all walks of life and racial backgrounds he writes about those who are helping to reduce the significance of race in society and through their actions are creating models of behavior for America's future Payne covers topics from how race is an artificial concept created for social purposes to race in the military interracial marriages and adoptions affirmative action and the effects of generational change and immigration on racial attitudes in America Instead of looking at questions of race simply in terms of black white relations he expands his discussion to include Latinos

Asians and other people of color Moreover Payne contends that the very concept of race is being weakened by fundamental changes throughout many facets of American culture This book looks forward and offers concrete suggestions for getting beyond race     *The Second Reconstruction* Gary Donaldson,2000 This text traces the history of the civil rights movement in the years following World War II to the present day Issues discussed the Civil Rights Act of 1964 the Voting Rights of 1965 and the Northern Ireland ghetto s     **Talking Book Topics** ,1998     *Black Politics in Conservative America* Marcus D.
