## No Substitute For Myth:

*Theofatalism* Lewis Tagliaferre, 2013-06-10 When your world of traditional assumptions is shaken where do you turn for inner peace and personal comfort Considering Pascals wager if there is no god and we disbelieve we have lost nothing but if there is a god and we disbelieve we may have lost everything But what if there is no free will and we all must believe whatever we are given That is the primary question that pushed this author into investigating what the world religions and philosophies taught about the existential puzzle called life When my traditional faith failed to provide any comfort after untimely death of my wife I began searching for some belief I could live with and this is what I was given Many thinking people have rejected the mythical god of the Bible and the Quran but they have not found a suitable substitute Since there is no proof for or against the existence of God everyone must be agnostic or atheist if they will admit it Perhaps it is time to replace the anthropomorphic god with one that really works Not the god of the Bible or the Quran but the prime force in the universe Generator Operator Destroyer G O D The expanded and updated essays in the second edition of this book develop such a new theology **Lessons from Sedona: a Spiritual Pathway to Serenity and Contentment** Lewis

Tagliaferre, 2010-04-16 Based upon the works of some of the worlds greatest thinkers *Lessons from Sedona A Spiritual Pathway to Serenity and Contentment* by author Lewis Tagliaferre builds on the success of his first volume *Voices of Sedona* This new comprehensive collection of essays is designed to teach the fundamental principles of Theofatalism the belief that God runs everything in the universe from the smallest subatomic particle to the largest interstellar galaxy The essays link the five principles developed in *Voices of Sedona* to contemporary issues in society and personal living including politics science religion aging history and economics Useful for both self study and as lesson guides to be used in organized discussion groups the essays show the world as it really is from many different perspectives A comprehensive and formidable source on metaphysics and spirituality *Lessons from Sedona A Spiritual Pathway to Serenity and Contentment* provides a plethora of information for those interested in growing changing and transcending the limiting constrictions of consensus beliefs It communicates humankinds unique place in time and space and their special role in the giant jigsaw puzzle of life Religion from Tolstoy to Camus Walter Kaufmann, Living Myth D. Stephenson Bond, 2019-06-25 *Living Myth* explores the dilemma of how to live life creatively at a time when the dominant myths of our culture are losing their power to give meaning to our lives Using C G Jung s idea of discovering a personal myth D Stephenson Bond reflects on the psychology of mythic imagination as a force in both culture and individual life He argues that meaning is experienced subjectively through the stirring of imagination and fantasy in the individual which touches the larger impersonal archetypal patterns The book offers hopeful insights into the possibilities of cultural renewal and individual meaning through the restoration of the imagination
