Michael A. Ermann, 2018 This exam and study guide tests and fosters ownership of concepts in building systems with an emphasis on the content stressed in the Architect Registration Examination A R E Building Systems component. It is designed as a study tool learning exercise and confidence builder. Questions are not reading comprehension devices that follow lessons but rather opportunities to introduce a topic. Your time is valuable so this study guide does not treat all content that might appear on the exam equally. Rather it weights content by 1 its importance in the A R E exam and 2 its usefulness to the career of an architect.
