McNally,2019-12-11 To address Common Core State Standards CCSS for reading and language today s educators strive to help their students develop higher level understanding with challenging materials In this book we share our method for

implementing an integrated strategy approach for helping readers understand expository text. This approach can be used to accompany and extend text structure instruction on the five most commonly used expository text structures: compare and contrast, cause and effect, problem and solution, description and sequence. Within this approach we designed a method for using key vocabulary in a way that helps readers think about the structure of the text. To aid in the development of higher level understanding with challenging materials this approach integrates other essential reading comprehension components that foster understanding such as predicting and summarizing. The Structure Sort integrated approach embeds these essential strategies before, during, and after reading to empower students to make connections and build comprehension at all stages of reading. **SRA Open Court Reading**, 2002 **SRA Open Court Reading** WrightGroup/McGraw-Hill, 2001-07
