

# The Sleep Cycle

While we sleep, we actually go through a pattern known as the sleep cycle. The sleep cycle consists of five stages. It can take around 90 minutes to enter the first stage. The cycle repeats itself many times throughout the night.

The first stage is called light or moving sleep. During this time, our eyes and muscles are still active but much slower than when we are awake. Our heart rate and breathing also slow down. We can be aware of the sounds around us. We are easily woken from this stage. Breathing is very slow during this stage. Sometimes our muscles will contract, and we get the feeling of falling.

During stage two, our bodies prepare themselves for deep sleep. Our eyes stop moving, and our body temperature gets lower. Our brain waves and heart rate slow down further. We completely lose the feeling of the sounds around us. The brain starts to process information we have gathered throughout the day. This time is the longest part of our cycle. It makes up over 50% of our total sleep time.

## The Sleep Cycle

During our sleep patterns, we have actually changed yet again. Our sleep (which we called delta waves) is now replaced by different kinds of brain waves. It is also the stage when some people can talk in their sleep or even sleepwalk. But usually happens when our cycle moves from one stage to the next sleep.

Stage 3 is the first real REM stage of our cycle. We can move to a deep sleep. Our muscles totally stop moving (remember, they are called delta waves). Our heart rate and body temperature are at their lowest points. If you wake this stage, you can feel confused for a couple of minutes.

After REM (rapid eye movement) sleep, our bodies start to change yet again. REM sleep, we have almost lost the ability to when we are awake. Our heart rate, and breathing rate all rise during REM. Our eyes start moving, and we can talk but sleep sound. This is when we have most of our dreams. We can spend less time in this stage. For example, babies may spend 50% of sleep in REM, whereas an adult spends around 20%.
