## **Michael Hudson:**

**Land As an Economic Factor and Its Biblical Origins** Kenneth Wenzer, 2003-11 Our homage to freedom is a mockery for the blinding glare of riches and power have made of democracy an illusion The consequence is life without social and economic justice and a false view we are chained to monetary acquisitiveness group identities and other limited perspectives Power and influence coupled with technology bureaucracy and greed have masked accumulated wisdom the bedrock of individual integrity Even social injustice masked as property rights takes on a look of integrity liberty and prosperity At the root of our problems is the relation of man to the land and his mental and physical separation from it The most enduring structure would be built upon the Fatherhood of God which the ancient Hebrews perceived as requiring the sharing among the entire people of the divine gift of land While land rent has been acknowledged to be socially created a theft by private interests of natural resources that belong to mankind in common is protected and exalted as the fruit of effort and a basis of personal rights The First Definitive History of Land Economics stands in a tradition of social criticism that recognizes that land rent income should be the tax base of the community and the means to eliminate poverty The author hopes to do something towards overcoming a way of thinking that in the guise of defending property rights defends privilege in its robbery of Nature labor and life

China: From Poverty to World Power Paolo Urio, 2024-10-19 The second edition of this book updated to February 24 2024 presents a comprehensive evaluation of the strategy implemented by China to manage its modernization process The author evaluates to what extent the economy has been developed whether the imbalances due to the priority given to economic development have been corrected and whether the improvements of science and technology have allowed China to develop world class high tech sectors and a modern defence Clearly the end of the XX Century saw the fulfilment of Zhou En Lai four modernizations i e the acquisition of power resources that fulfilled Mao's proud 1949 statement we stood up thereby projecting China into the international arena as a re-emerging world power The author insists on the fundamental difference between American and Chinese ideologies as the main drivers of their foreign policy i e the extreme rigidity of the former compared to the remarkable flexibility and adaptability of the latter He further explains the consequences of the increasingly aggressive American foreign policy i e the US pretence to act as the leader of the existential struggle between democracy and dictatorship This posture reached its apex during the Ukrainian and the Middle East crises that unveiled the irreversible decline of the West and have become two formidable accelerators of the transition from the unipolar world America made to the multipolar world promoted by China Russia and the BRICS

**Why the West Can't Win** Fadi Lama, 2023-05-01 Geopolitical upheaval has gripped the world since collapse of the Soviet Union During the 1990s the West focused on eliminating the resurgence of Russia as a great power This led to the assimilation of Warsaw Pact countries into NATO two Chechen wars

and political systems in the Central Asian republics aligned with the West Russia's economic destruction was managed by the Harvard boys shock therapy which left Russian resources in the control of a few oligarchs aligned with the West By the end of the 1990s Russia was a weak bankrupt country of marginalized influence in the world Then the West's focus turned to China as a potential challenger to western global hegemony It was thought to suffice to control global energy resources and sea lanes to China to prevent China from challenging western global hegemony Hence the first two decades of the millennium were focused on controlling West Asia and North Africa's energy resources For most the collapse of the Soviet Union in 1991 signaled the victory of the self denominated Free World Why the West Can't Win however addresses how events in the three following decades signal the end of a millennium of West European expansionism a plundering and oppression initially labeled Crusades when the popes embodied political power morphing into colonialism then to the Free World when colonialism went out of fashion post World War II and at last to the International Community after the collapse of the Soviet Union This book's geopolitical analysis includes a historical overview an understanding of the financial systems established at the Bretton Woods conference that continue dominating the global economy how they are used as a powerful geopolitical instrument an economic analysis based on real goods production global energy dynamics alliances and strategies of key global players It addresses the emerging division of the world into two geopolitical groups Western Europe North America Australia New Zealand and Africa Asia and Latin America The current global geopolitical clash is in essence a struggle between the colonial powers wishing to preserve the Bretton Woods system that allows siphoning wealth of nations and sovereign nations striving for independence and an end to a millennium of oppression This work compares the geopolitical forces since the turn of the millennium with a view to providing insight into their relative strengths and the likely outcome of this struggle

**Canterbury Marriage Licences** Church of England. Diocese of Canterbury,1894      **Crisis in Sri Lanka and the World** Asoka Bandarage,2023-05-22 This book provides a broad picture of Sri Lanka's on going political and economic crisis as the culmination of several centuries of colonial and neo colonial developments The book presents the Sri Lankan crisis as an exemplification of a broader global existential crisis facing more and more debt trapped countries especially in the post colonial Global South The book's in depth case study raises important questions pertaining to sovereignty and political and economic democracy in Sri Lanka and the world at large The book also explores the emergence of the crisis in the context of the accelerating geopolitical conflict between China and the USA in the Indian Ocean It ponders if the debt crisis economic collapse and political destabilization in Sri Lanka were intentionally precipitated to the advantage of the Quadrilateral Alliance USA India Australia and Japan Moving beyond geopolitical rivalry the book juxtaposes Sri Lanka's political economic crisis with the broader ecological crisis of climate change and sea level rise The book concludes with a consideration of the ethical dilemmas behind the debt and survival crisis in Sri Lanka and across the world It points out a range of social movements and initiatives in Sri Lanka and the Global South which subscribe to collective and ecological

David Ray Griffin,2023-05-01 The American government through its media has convinced most Americans to support the  
Ukrainian government This books shows why this is a mistake The United States promised Mikhail Gorbachev that NATO  
would not expand one inch eastward and there had been ample warnings by George Kennan and others that moving NATO  
eastward especially moving into Georgia and Ukraine would cause problems for Russia In Ukraine prior to 2014 Ukrainian  
and Russian speakers were coexisting tolerably well But in 2013 and 2014 neocons in Obama s administration engineered a  
coup with help from neo Nazis turning Ukraine into a Russia hating nation The war in Ukraine began that year not in 2022  
when Russia attacked in order to protect the Russian speaking regions under attack by the new coup government in Kiev  
Although this book is primarily about the war in Ukraine it also shows how in one sense the war in Ukraine is simply one  
more instance in the trajectory of American imperialism as illustrated by previous US interventions in Iran Guatemala Cuba  
Brazil Greece Dominican Republic Panama and Iraq In another sense this war reveals just how committed America is to  
maintaining a unipolar world order Because this war illustrates that America is willing to threaten nuclear holocaust it is  
almost as if people in the U S State Department and military believe that life is not worth living unless the US can control the
