The Fight Against Platform Capitalism Jamie Woodcock, 2021-03-02 So far platform work has been an important laboratory for capital Management techniques like the use of algorithms are being tested with a view to exporting across the global economy and it is argued that automation is undermining workers agency Although the contractual trick of self employment has allowed platforms to grow quickly and keep their costs down yet it has also been the case also that workers have also found they can strike without following the existing regulations This book develops a critique of platforms and platform capitalism from the perspective of workers and contributes to the ongoing debates about the future of work and worker organising It presents an alternative portrait returning to a focus on workers experience focusing on solidarity drawing out a global picture of new forms of agency In particular the book focuses on three dynamics that are driving struggles in the platform economy the increasing connections between workers who are no longer isolated the lack of communication and negotiation from platforms leading to escalating worker action around shared issues and the internationalisation of platforms which has laid the basis for new transnational solidarity Focusing on transport and courier workers online workers and freelancers author Jamie Woodcock concludes by considering how workers build power in different situations Rather than undermining worker agency platforms have instead provided the technical basis for the emergence of new global struggles against capitalism

Buyer Aware Marta L. Tellado, 2022-09-20 In an era of corporate overreach when consumers have never been more vulnerable to digital surveillance unsafe food and dangerously faulty products the president and CEO of Consumer Reports gives us a playbook to put the power back in our hands You ve been getting ripped off The rules that have protected

consumers for decades are failing Companies are spying on us Many of the products we once trusted are dangerous and failing at alarming rates Whether we are buying a crib a small appliance an iPhone app or shopping for car insurance it s become harder than ever to know whether the choices we make in the marketplace are putting us at risk either from physical harm or the abuse of our personal data by hackers or corporations This is intolerable It s wrong And we don t have to put up with it anymore Marta L Tellado the president and CEO of Consumer Reports has been an advocate for consumers for decades In Buyer Aware Tellado shows you the steps you can take to protect yourself from predatory business practices and how to exert your inherent power as a consumer to spur politicians and businesses to clean up their act Only then can we ensure that we have an economy that is fair safe and transparent for all and puts consumers first Responsible and Resilient Design for Society, Volume 6 Amaresh Chakrabarti,Vishal Singh,Prasad S. Ayn Rand the New Age Esalen Foundation in Big Sur and American traditions from the tent revival to predestination Written with verve and imagination What Tech Calls Thinking is an intellectual refutation of Silicon Valley s ethos pulling back the curtain on the self aggrandizing myths the Valley tells about itself FSG Originals Logic dissects the way technology functions in everyday lives The titans of Silicon Valley for all their utopian imaginings never really had our best interests at heart recent threats to democracy truth privacy and safety as a result of tech s reckless pursuit of progress have shown as much We present an alternate story one that delights in capturing technology in all its contradictions and innovation across borders and socioeconomic divisions from history through the future beyond platitudes and PR hype and past doom and gloom Our collaboration features four brief but provocative forays into the tech industry s many worlds and aspires to incite fresh conversations about technology focused on nuanced and accessible explorations of the emerging tools that reorganize and redefine life today
