Adams,Richard J. Bolton,2003-08-02 The collation of large electronic databases of scientific and commercial information has led to a dramatic growth of interest in methods for discovering structures in such databases These methods often go under the general name of data mining One important subdiscipline within data mining is concerned with the identification and detection of anomalous interesting unusual or valuable records or groups of records which we call patterns Familiar examples are the detection of fraud in credit card transactions of particular coincident purchases in supermarket transactions of important nucleotide sequences in gene sequence analysis and of characteristic traces in EEG records Tools for the detection of such patterns have been developed within the data mining community but also within other research communities typically without an awareness that the same problem was common to many disciplines This is not unreasonable each of these disciplines has a large literature of its own and a literature which is growing rapidly Keeping up with any one of these is difficult enough let alone keeping up with others as well which may in any case be couched in an unfamiliar technical language But of course this means that opportunities are being lost discoveries relating to the common problem made in one area are not transferred to the other area and breakthroughs and problem solutions are being rediscovered or not discovered for a long time meaning that effort is being wasted and opportunities may be lost Top 10 of Everything 2004 Russell Ash,2003 Presents hundreds of top ten lists arranged in topical sections covering the universe and Earth life on Earth the human world town and country culture and learning music stage and screen the commercial world transportation and tourism and sport and leisure

Hindi Film Songs and the Cinema Anna Morcom,2017-07-05 Since their beginnings in the 1930s Hindi films and film songs have dominated Indian public culture in India and have also made their presence felt strongly in many global contexts Hindi film songs have been described on the one hand as highly standardized and on the other as highly eclectic Anna Morcom addresses many of the paradoxes eccentricities and myths of not just Hindi film songs but also of Hindi cinema by analysing film songs in cinematic context While the presence of songs in Hindi films is commonly dismissed as purely commercial this book demonstrates that in terms of the production process musical style and commercial life it is most powerfully the parent film that shapes and defines the film songs and their success rather than the other way round While they constitute India s still foremost genre of popular music film songs are also situational dramatic sequences inherently

multi media in style and conception This book is uniquely grounded in detailed musical and visual analysis of Hindi film songs song sequences and films as well as a wealth of ethnographic material from the Hindi film and music industries Its findings lead to highly novel ways of viewing Hindi film songs their key role in Hindi cinema and how this affects their wider life in India and across the globe It will be indispensable to scholars seeking to understand both Hindi film songs and Hindi cinema It also forms a major contribution to popular music popular culture film music studies and ethnomusicology tackling pertinent issues of cultural production multi media and the cross cultural use of music in Hindi cinema The book caters for both music specialists as well as a wider audience The Year's Best Fantasy and Horror ,2003 *Top 100 Computer and Technical Careers* J.
