book as the commodification of victimhood and as a result ensures that impunity is virtually guaranteed for the corporation and the Ivorian government This book also examines the failure of international and domestic legal measures to sanction the perpetrators alongside civil society s shortcomings and ultimately advocates a more cautionary approach to civil society s potential to label censure and sanction large scale state corporate crime This book will help readers understand the difficulties in sanctioning such crime as well as promoting the theoretical framework of state crime the understanding of which could lead to the alleviation of human suffering at the hands of criminal states and corporations     *International Directory of Company Histories* Jay P.
