*Photograph Like a Thief* Glyn Dewis, 2017-03-24 No photographer works in a vacuum Photographers like all artists stand on the shoulders of those who came before them and they are informed and influenced by those working around them contemporaneously If you are striving to find your own style one of the most powerful exercises you can practice is to find influence and inspiration in the work of those around you and then emulate that work in an effort to define shape and grow your own photographic voice By collecting imitating and eventually reshaping and combining the work of those around you your unique voice can be found and the quality of your work can soar In *Photograph Like a Thief* photographer author and retoucher Glyn Dewis embraces the idea of stealing and recreating others work in order to improve as an artist By stepping inside others images you can learn to reverse engineer their creation then build an image yourself that simultaneously pays homage to that work yet is also an original creation itself The book is divided into two parts In Part 1 Glyn discusses his approach covering the process of stealing ideas and finding inspiration He also covers the gear he uses as well as his retouching and post processing workflow In a very helpful chapter on reverse engineering a photograph Glyn discusses how to read an image by the catchlights shadow position and the hardness softness of the shadows This is a crucial skill to acquire if you want to recreate another s look In Part 2 Glyn works through a series of images from initial concept and influence to lighting shooting and post processing the image to get to the final result For each image he reverse engineers the shot to describe how it was created and discusses how the image influenced him then works through the gear he used the lighting for the image and the post processing of the image from the RAW out of camera shot to the finished piece While Glyn s work primarily focuses on portraiture he finds inspiration and influence from a wide variety of work from legendary photographers to animated films to book covers to movie posters By working alongside Glyn in *Photograph Like a Thief* you too can learn to find inspiration all around you discover how that work can influence you improve your photographic and post processing skill set and begin your own journey to defining your unique style Who knows Soon others may be stealing from you [Art Now Gallery Guide](#) ,2005-05 **Art in America** Frank Jewett Mather, Frederic Fairchild Sherman, 2008 [Nick Brandt: on This Earth, a Shadow Falls](#) Nick Brandt, Jane Goodall, 2014-07-31 In 2001 Nick Brandt embarked on an ambitious photographic project a trilogy of books memorializing the vanishing natural grandeur of East Africa Focusing on some of the world s last great populations of large mammals elephants giraffes lions gorillas and their kin he created two of the new century s most influential photographic books *On This Earth* 2005 and *A Shadow Falls* 2009 His iconic portraits of these majestic animals express an empathy usually reserved for human subjects The magisterial *On This Earth* *A Shadow Falls* collects the most memorable images from Brandt s first two books along with their accompanying essays A testament to the bookmaker s craft it is the first volume on Brandt s work to capture the superb quality of his remarkable large format prints which are notable for their velvet blacks and tonal subtleties *New York Magazine* ,1992-01-27 New York magazine was

born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea

**Advances in Learning Software Organizations** Klaus-Dieter Althoff,Raimund L. Feldmann,Wolfgang Müller,2003-06-30 The importance of production and use of high quality software is still growing as more and more businesses depend on information technology Well educated highly skilled and experienced employees characterize the situation in most companies in the developed countries Increasingly they work together in temporary networks with geographically distributed offices Using and developing their knowledge is a key issue in gaining competitive advantages We have learned during recent years that the exchange and development of knowledge which we call learning demands a great deal of human interaction However it is widely recognized that information systems will in many cases enable the sharing of experience across distributed organizations and act as a knowledge repository A Learning Software Organization LSO will turn Intellectual Capital into market shares and profit as it establishes the means to manage its knowledge The LSO workshop series was created in 1999 to provide a communication forum that addresses the questions of organizational learning from a software point of view and builds upon existing work on Knowledge Management and Organizational Learning It aims at bringing together practitioners and researchers for an open exchange of experience with successes and failures in organizational learning Right from the beginning fostering interdisciplinary approaches and providing an opportunity to learn about new ideas has been a central issue of the workshop series The feedback that we have obtained in recent years has encouraged us to continue our work for a better understanding of the setup and running of Learning Software Organizations
