Nicu Survival Guide For Nurses:

A Preemie Parent's Survival Guide to the NICU Megan Grandinetti, 2014 A Preemie Parent's Survival Guide to the NICU details the journey of Megan Grandinetti and her husband during their NICU stay with their daughter Sofie. Sofie was born at 26 weeks and stayed for a tumultuous 5 months in the hospital. Megan gives new parents of preemies pieces of advice she wishes she had been told coming into the NICU. Through 18 personal tips, Megan paints a colorful overview of Sofie's time in the hospital and the things she feels were critical to her family's success. New Nurse's Survival Guide Genevieve Chandler, 2009-12-18 Your transition from nursing student to practicing nurse begins here. Packed with real-life examples and indispensable advice from novice nurses and staff development experts, New Nurse's Survival Guide is the single best book available on how to get the job you want and become the nurse you aspire to be after you graduate from nursing school. You'll learn exactly what you must know and do in order to stand out from all the other new graduates and make yourself irresistible to employers in even the most challenging job market. And you'll find out what it really takes to thrive, not just survive, during your first year on the job. Land a great job in any economy by learning what you can do to gain on the job experience while you are still in school. How to prepare for your job search interview and orientation. What hospitals are looking for and what you need to bring to the table. How you can demonstrate that you are a nurse that takes the initiative. How to demonstrate leadership to potential employers. Neonatal Nursing: A Global Perspective Julia Petty, Tracey Jones, Agnes van den Hoogen, Karen Walker, Carole Kenner, 2022-04-22 This textbook is written in line with the Council of International Neonatal Nurses Inc (COINN) vision for global unity for neonatal nursing. The core values and goals of COINN are based on excellence and advocacy for high-quality newborn care, as well as respecting diversity by integrating cultural norms and values among the care of newborns and their families. The book promotes neonatal nursing as a global speciality through evidence research and education of neonatal nurses and offers key examples of the millennium goals and global outcomes, as well as variations in outcomes for babies. The first part focuses on global perspectives of neonatal nursing from different continents, aligning with the World Health Organization's global regions: The Americas (USA, Canada, and South America), Western Pacific region (Australia and New Zealand), European region (UK and Europe), African region (South East Asia), and Eastern Mediterranean region. For each region, education and competencies, challenges and opportunities, research and evidence-based practice (EBP), as well as practice regulations, are described. The second part elaborates on key topics for neonatal nursing across the globe, such as the continuity of neonatal care in the community, patient and family-centered care in neonatal settings, sleep and brain development, the fundamental care needs of the neonate, and global perspectives on hypothermia, hypoglycaemia, and hypoxia. Written in a formal academic but reader style, using key literature and evidence, this textbook enables an understanding from a large audience with academic levels and experience, both staff and students, bedside nurses, advanced practice nurses, midwives, and allied professionals. In addition, first-person story-based

reflective narrative are interspersed throughout the book to capture the perspectives of nurses staff and parents in the form of vignettes This textbook is aimed at neonatal nurses across the world as well as current and aspiring students in this field
