## **Nietzsche Ideals Germany Classic Reprint:**

*Nietzsche and the Ideals of Modern Germany (Classic Reprint)* Herbert Leslie Stewart, 2015-07-08 Excerpt from Nietzsche and the Ideals of Modern Germany Since the war began Friedrich Nietzsche has been widely discussed and the question has been asked how far his Neue Moral explains the attitude of the Germans in international affairs Newspapers and magazines have been filled with estimates which may well bewilder the public One critic declares that chapter and verse may be quoted from Zarathustra to justify every step which Germany has taken another finds that no philosopher has spoken out more boldly against the spirit of racial aggressiveness than in short Nietzsche is the champion of the German Geist not as embodied in but as contrasted with the German Reich In the heated language of the moment there is of course much exaggeration and much misunderstanding unfortunately the truth on the subject is somewhat difficult of access to the British reader Most people are deterred from investigating at first hand when they find that some twenty volumes are to be consulted and the available hand books are unsatisfactory Our competent teachers of ethics have for the most part passed Nietzsche by and the work of expounding him has fallen largely to the zealots of his own school About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

**Nietzsche and Jung** Patricia Dixon, 1999 This comprehensive study of the affinity of thought between Friedrich Nietzsche and C G Jung reveals that the quest for wholeness the central theme in Jung's psychology is the dominant thread that runs through the entire fabric of Nietzsche's writings Emerging in his earliest essays and ultimately interweaving the major philosophical concepts of his latest works this underlying theme provides the pull thread for unraveling the intricately entwined skein of Nietzsche's complex but coherent philosophy This book aims on the one hand to expose the extraordinary reflection of Nietzsche's ideas in Jung's writings and at the same time to employ the language of analytical psychology to illustrate and clarify Nietzsche's message Holding that Jung's perception of Nietzsche's philosophy belies the uncanny similarity of their thought and perpetuates popular

misunderstandings of Nietzsche the author offers an extensive critique of Jung's analyses of Nietzsche's philosophy and his assessment of Nietzsche's psychic disturbance      **Nietzsche und die antike Philosophie** Daniel W. Conway,1992
