Tomlinson, 2018-03-14 I have been somewhat reluctant to write about the absolute best digital single lens reflex camera I have ever used the Nikon D800E. The reason is that I like to write about older cameras that have become cheaper to buy and use for the frugal photographer. Although some of the cameras I have written about were terribly expensive when first released by now they are reasonably cheap. For example I've written books about the Canon EOS 1DS 1DS Mark II the Nikon D1 and the Nikon D2X. These all are pro DSLRs and as such were released at prices ranging from 6 000 to 8 000. By now however the most you will pay is around 400 for any of them. In a few years the Nikon D800E too will be much cheaper and an obvious choice for the frugal photographer. No matter the price the D800 and D800E are two of

the best DSLRs ever made Either will change you as a photographer in fantastic ways **Getting Started in Digital Photography** Khara Plicanic,2013-12-19 Please note that this material was also published as Your Camera Loves You Learn to Love it Back Peachpit Press 978 0 321 78410 0 If you re not thrilled with the photos you re getting from your digital camera whether it s a point and shoot or a DSLR the answer isn t a new camera It s learning to use the one you ve got After all it s not the camera that takes great shots it s the person behind the camera In Getting Started in Digital Photography From Snapshots to Great Shots photographer and instructor Khara Plicanic teaches the basics of photography and digital camera functions that you can apply to any camera anywhere any time answering questions like What do all those different modes mean and when do I use them What s a megapixel and why should I care Follow along with Khara and you will Learn about shutter speed aperture and shooting modes Improve those yellow dingy photos of your kids indoor sporting events Fix the exposure on shots that are too dark or too bright Move beyond the Auto mode to take advantage of your camera s settings Discover that the key to great shots is to learn your way around your camera By the time you re finished you ll know how to best use the features of whatever camera you already have to take great shots And once you ve got the shots show them off Join the book s Flickr group share your photos and discuss how you get your own great shots at flickr com groups gettingstartedfromsnapshotstogreatshots
