Witten, Marco Gori, Teresa Numerico, 2010-07-27 *Web Dragons* offers a perspective on the world of Web search and the effects of search engines and information availability on the present and future world In the blink of an eye since the turn of the millennium the lives of people who work with information have been utterly transformed Everything we need to know is on the web It s where we learn and play shop and do business keep up with old friends and meet new ones Search engines make it possible for us to find the stuff we need to know Search engines web dragons are the portals through which we access society s treasure trove of information How do they stack up against librarians the gatekeepers over centuries past What role will libraries play in a world whose information is ruled by the web How is the web organized Who controls its contents and how do they do it How do search engines work How can web visibility be exploited by those who want to sell us their wares What s coming tomorrow and can we influence it As we witness the dawn of a new era this book shows readers what it will look like and how it will change their world Whoever you are if you care about information this book will open your eyes and make you blink Presents a critical view of the idea of funneling information access through a small handful of gateways and the notion of a centralized index and the problems that may cause Provides promising approaches for addressing the problems such as the personalization of web services Presented by authorities in the field of digital libraries web history machine learning and web and data mining Find more information at the author s site webdragons net **Grid and Cooperative Computing - GCC 2004** Hai Jin, 2004-10-14 This book constitutes the joint refereed proceedings of five international workshops held in association with the Third International Conference on Grid and Cooperative Computing GCC 2004 in Wuhan China in October 2004 The 95 revised workshop papers presented were carefully reviewed and selected from a total of 154 submissions In accordance with the workshop titles the papers are organized in topical sections on the information grid and knowledge grid storage grid and technologies information security and survivability for the grid agents autonomic computing and grid enabled virtual organization and

visualization and visual steering Along Came Google Deanna Marcum, Roger C. Schonfeld, 2021-09-21 An incisive history of the controversial Google Books project and the ongoing quest for a universal digital library Libraries have long talked about providing comprehensive access to information for everyone But when Google announced in 2004 that it planned to digitize books to make the world's knowledge accessible to all questions were raised about the roles and responsibilities of libraries the rights of authors and publishers and whether a powerful corporation should be the conveyor of such a fundamental public good Along Came Google traces the history of Google's book digitization project and its implications for us today Deanna Marcum and Roger Schonfeld draw on in depth interviews with those who both embraced and resisted Google's plans from librarians and technologists to university leaders tech executives and the heads of leading publishing houses They look at earlier digital initiatives to provide open access to knowledge and describe how Google founders Sergey Brin and Larry Page made the case for a universal digital library and drew on their company's considerable financial resources to make it a reality Marcum and Schonfeld examine how librarians and scholars organized a legal response to Google and reveal the missed opportunities when a settlement with the tech giant failed Along Came Google sheds light on the transformational effects of the Google Books project on scholarship and discusses how we can continue to think imaginatively and collaboratively about expanding the digital availability of knowledge *E-commerce* Kenneth C. Laudon, Carol Guercio Traver, 2007 In today's evolving business environment E-commerce business technology society introduces students to the concepts and practice of electronic commerce This book emphasizes the three major forces behind e-commerce business fundamentals technology opportunities and social issues In every chapter these three themes come alive with the discussion of e-commerce concepts in the areas of economics marketing and information technology and with the presentation of real world e-commerce business cases and stories The result is a coherent framework for organizing a complex topic which promotes a clear understanding of how e-commerce is evolving Book jacket **Annual Report** University of Connecticut.
